WEBVTT

1 "" (0)
00:00:00.000 --> 00:00:02.993
It says.

2 "Marc Fetterman" (280920064)
00:00:02.993 --> 00:00:06.475
Recording in progress. Congratulations. Thanks, mark.

3 "Christopher Bailey" (3537529344)
00:00:06.475 --> 00:00:23.070
Good good morning. Everybody and thank you. I apologize for the delay of
the start of the February 15th meeting. I want to 1st call the meeting to
order and do a roll call.

4 "Christopher Bailey" (3537529344)
00:00:23.070 --> 00:00:31.752
I'm going to start off Anthony, Dale.

5 "Anthony Dale" (1106162176)
00:00:31.752 --> 00:00:34.632
Thank you, uh, mark.

6 "Christopher Bailey" (3537529344)
00:00:34.632 --> 00:00:38.160
Right.

7 "Christopher Bailey" (3537529344)
00:00:38.160 --> 00:00:44.550
jeffery's okay.

8 "Christopher Bailey" (3537529344)
00:00:44.550 --> 00:00:51.930
Ah, Jason, right cause.

9 "Christopher Bailey" (3537529344)
00:00:56.310 --> 00:01:04.830
Harrison Miller was that a present? I think I heard something. Yes.

10 "Christopher Bailey" (3537529344)
00:01:04.830 --> 00:01:08.236
Okay, Mitchell here.

11 "mitchell kannry" (3182865664)
00:01:08.236 --> 00:01:10.733
Please you start over.

12 "Christopher Bailey" (3537529344)
00:01:10.733 --> 00:01:14.520
```

Present.

13 "Christopher Bailey" (3537529344)
00:01:14.520 --> 00:01:24.136
Customer at Pete Parsons.

14 "keith.parsons" (133187072)
00:01:24.136 --> 00:01:27.915
Uh, Michael.

15 "Christopher Bailey" (3537529344)
00:01:27.915 --> 00:01:30.074
Present.

16 "Michael Brown" (2736486400)
00:01:30.074 --> 00:01:34.315
Jeff.

17 "Christopher Bailey" (3537529344)
00:01:34.315 --> 00:01:38.730
Present and Matthew border.

18 "Christopher Bailey" (3537529344)
00:01:44.370 --> 00:01:47.670
Matt, I know you're, you were talking the whole time, so Yep.

19 "Christopher Bailey" (3537529344)
00:01:47.670 --> 00:01:52.140
Matt, he's on the screen. Yeah. Okay.

20 "Christopher Bailey" (3537529344)
00:01:52.140 --> 00:01:56.132
All right, thank you all. Uh, I can't hear you anymore.

21 "Matt Borger" (184016640)
00:01:56.132 --> 00:01:58.150
You can hear me you hear me now.

22 "Christopher Bailey" (3537529344)
00:01:58.150 --> 00:02:06.594
I can hear you now, Matt, can you hear me? I don't think you can hear.

23 "Matt Borger" (184016640)
00:02:06.594 --> 00:02:11.756
Let me log out and try to come back in understood I'm going to move.

24 "Christopher Bailey" (3537529344)
00:02:11.756 --> 00:02:18.390
For it, I'm going to show me share my screen.

25 "Christopher Bailey" (3537529344)
00:02:18.390 --> 00:02:21.750
I'm presenting the Thursday February 8.

26 "Christopher Bailey" (3537529344)
00:02:21.750 --> 00:02:24.900
A special meeting minutes.

27 "Christopher Bailey" (3537529344)
00:02:24.900 --> 00:02:44.900
2nd.

28 "Christopher Bailey" (3537529344)
00:02:44.900 --> 00:02:49.170
Is there a motion to adopt the minutes?

29 "Michael Brown" (2736486400)
00:02:52.291 --> 00:02:59.779
Wait, a 2nd does Jeff. 3rd, thank you.

30 "Christopher Bailey" (3537529344)
00:02:59.779 --> 00:03:00.571
Hi.

31 "Marc Fetterman" (280920064)
00:03:00.571 --> 00:03:20.030
Chris, a comment, uh, it's mark. Um, it this is still titled agenda and
it doesn't include the people at the meeting. Can we, um, postpone this?
And I would be glad to help with the minutes as I have for several years.
If you'd rather I don't, I'd be happy also not to help, but I.

32 "Marc Fetterman" (280920064)
00:03:20.030 --> 00:03:23.280
Like, you, I do want a certain minimum standard.

33 "Marc Fetterman" (280920064)
00:03:23.280 --> 00:03:26.627
Understood what we did then.

34 "Christopher Bailey" (3537529344)
00:03:26.627 --> 00:03:32.063
You would you like, would you be better off making a friendly amendment
to? No, sir I think.

35 "Marc Fetterman" (280920064)
00:03:32.063 --> 00:03:38.701
This says agenda on it there are too many. We're going to waste the
board's time with all the issues it will do.

36 "Christopher Bailey" (3537529344)

00:03:38.701 --> 00:03:42.627
All right, then we'll have to bring this up in the next meeting then.

37 "Marc Fetterman" (280920064)
00:03:42.627 --> 00:03:49.356
But if if you could send me a copy, I'd be happy to help. Thank you mark. But there is.

38 "Christopher Bailey" (3537529344)
00:03:49.356 --> 00:03:54.907
Emotional floors, so we're not commenting on it. Okay. And that's.

39 "Marc Fetterman" (280920064)
00:03:54.907 --> 00:03:57.666
That's the appropriate time to comment. Correct?

40 "Christopher Bailey" (3537529344)
00:03:57.666 --> 00:04:02.784
Is your comment the, and I.

41 "Marc Fetterman" (280920064)
00:04:02.784 --> 00:04:16.760
I believe we should not approve them during this document because of all the work that needs to be done, including the people that are in attendance were not noted on this document. Plus it's still labeled agenda .

42 "Marc Fetterman" (280920064)
00:04:16.760 --> 00:04:21.819
It doesn't cover all the items we discussed.

43 "Christopher Bailey" (3537529344)
00:04:21.819 --> 00:04:22.701
Well.

44 "Marc Fetterman" (280920064)
00:04:22.701 --> 00:04:32.624
We talked, I'm very glad to see Nicole Rodgers here. Her presence was requested at our last meeting and I don't think that's noted in here.

45 "Christopher Bailey" (3537529344)
00:04:32.624 --> 00:04:35.664
It's noted in the transcript, I don't care.

46 "Marc Fetterman" (280920064)
00:04:35.664 --> 00:04:39.749
That's an important item that should be in our written written minutes. Chris.

47 "Marc Fetterman" (280920064)

00:04:39.749 --> 00:04:43.319
She's the yeah, and that's correct but that.

48 "Christopher Bailey" (3537529344)
00:04:43.319 --> 00:04:51.209
Every every instance of a decision or question does not go into the
meeting agenda meeting minutes. That's what these 3 minutes Chris.

49 "Christopher Bailey" (3537529344)
00:04:51.209 --> 00:05:05.628
Yes, and that's what the transcript was for the transcript will not and
moving forward the agenda. The meeting minutes will not carry every
sentence of every speech in there. That's why testing that. Chris but
they did, they.

50 "Marc Fetterman" (280920064)
00:05:05.628 --> 00:05:11.209
Do need to note each of the important points that are listed. And when we
talk about the.

51 "Marc Fetterman" (280920064)
00:05:11.209 --> 00:05:14.519
Yo, that's an important point.

52 "Marc Fetterman" (280920064)
00:05:14.519 --> 00:05:29.313
In my opinion, we also talked to another item about the, uh, code you
mentioned were being renewed for people. That's a very important point.
And that's not mentioned. Um.

53 "Christopher Bailey" (3537529344)
00:05:29.313 --> 00:05:32.270
That we're wasting the board's time with this are.

54 "Marc Fetterman" (280920064)
00:05:32.270 --> 00:05:36.411
If you want to, I will vote against it if you do wish to go ahead with
the vote but.

55 "Christopher Bailey" (3537529344)
00:05:36.411 --> 00:05:42.959
Mark, I, I don't I don't agree with your statement that it's not in here.
It's clearly in here.

56 "Christopher Bailey" (3537529344)
00:05:42.959 --> 00:05:47.219
And and that's that's something that I understand is different.

57 "Christopher Bailey" (3537529344)
00:05:47.219 --> 00:05:57.050

From the way we did it before, but those that information is clearly and is identified where in the transcript that that information is located. So I'm sorry, I can't see the.

58 "Marc Fetterman" (280920064)
00:05:57.050 --> 00:06:02.749
The agenda I can't. This is labeled agenda. I'm, it's too small to read. I can.

59 "Christopher Bailey" (3537529344)
00:06:02.749 --> 00:06:07.070
In 2nd, how about now.

60 "Anthony Dale" (1106162176)
00:06:07.070 --> 00:06:13.111
Let's share this with Nancy. I have a question for you.

61 "Christopher Bailey" (3537529344)
00:06:13.111 --> 00:06:18.654
Let's let's finish this mark or are you are you finished or would you would like to expand.

62 "Marc Fetterman" (280920064)
00:06:18.654 --> 00:06:21.989
To express my objections to the minutes.

63 "Marc Fetterman" (280920064)
00:06:21.989 --> 00:06:26.645
Or, to this agenda, it's not even labeled minutes. Right? Thank you.

64 "Christopher Bailey" (3537529344)
00:06:26.645 --> 00:06:30.149
All right and that was.

65 "Christopher Bailey" (3537529344)
00:06:30.149 --> 00:06:33.411
Anthony, I think that was you yes. Yes.

66 "Anthony Dale" (1106162176)
00:06:33.411 --> 00:06:39.539
This is me I'm sorry, I would tend to agree with Mark on this. If we have.

67 "Anthony Dale" (1106162176)
00:06:39.539 --> 00:06:44.249
I understand that it won't. The conversations won't include every single topic.

68 "Anthony Dale" (1106162176)
00:06:44.249 --> 00:06:49.139

But I think if there are critical conversations that happen, at least those conversations are.

69 "Anthony Dale" (1106162176)
00:06:49.139 --> 00:06:55.859
Identify in the meeting, so I think that those conversations and I was at the last meeting those conversations when I included.

70 "Anthony Dale" (1106162176)
00:06:55.859 --> 00:07:01.799
I would say that we should probably postpone. This is not something that we have to do at the speed and be.

71 "Anthony Dale" (1106162176)
00:07:01.799 --> 00:07:06.149
Postpone it to give it more tasks and information we think all the appropriate corrections.

72 "Anthony Dale" (1106162176)
00:07:06.149 --> 00:07:09.959
And then the only other thing I would say is.

73 "Anthony Dale" (1106162176)
00:07:09.959 --> 00:07:16.349
I didn't know that we now are the transcripts included and we'll be sent out to the public. I think that's the.

74 "Anthony Dale" (1106162176)
00:07:16.349 --> 00:07:21.189
Question I have, because I think that was different. Okay. Thank you.

75 "Christopher Bailey" (3537529344)
00:07:21.189 --> 00:07:31.139
They are, and that's a change that's been that hasn't happened before that we're now doing. Uh, we're actually providing the written transcript.

76 "Christopher Bailey" (3537529344)
00:07:31.139 --> 00:07:46.304
In the meeting, and actually by law, we're supposed to upload the transcripts of the previous meeting within 72 hours. So that information is up is being uploaded into open up that goes on the website where the.

77 "Matt Borger" (596337408)
00:07:46.304 --> 00:07:47.704
Things are posted.

78 "Christopher Bailey" (3537529344)
00:07:47.704 --> 00:07:50.490
Correct, well, I mean, I, I don't want to.

79 "Matt Borger" (596337408)
00:07:50.490 --> 00:08:01.462
A little this too much, but I think if we're gonna do that, we should reference the transcript in the meeting minutes and say for detailed conversations. See the transcript.

80 "Marc Fetterman" (280920064)
00:08:01.462 --> 00:08:05.029
Hey, Chris yeah. Yeah I don't see that.

81 "Matt Borger" (596337408)
00:08:05.029 --> 00:08:16.548
It's just a reference some of the transcript, it just pulls up part of this stuff. I think you gotta put it all or none of it, I guess, is my thought.

82 "Christopher Bailey" (3537529344)
00:08:16.548 --> 00:08:22.799
Well, it's it's I, I can understand that and I don't want to belabor this because there is a vote on the floor.

83 "Christopher Bailey" (3537529344)
00:08:22.799 --> 00:08:30.329
But what I do want to say is that if there's any suggestions or any changes to this type of format, we definitely can take that.

84 "Christopher Bailey" (3537529344)
00:08:30.329 --> 00:08:37.619
Into advisement and move forward on that. Um, I do like the idea of actually putting a link in the meeting minutes.

85 "Christopher Bailey" (3537529344)
00:08:37.619 --> 00:08:44.849
However, they are uploaded, uh, in the, uh, uh, open meeting open D. C. dot. Gov.

86 "Christopher Bailey" (3537529344)
00:08:44.849 --> 00:08:50.999
Link to each meeting so each meeting will have a transcript. It will be uploaded 72 hours after the meeting.

87 "Christopher Bailey" (3537529344)
00:08:50.999 --> 00:08:54.209
And then we will reference it in the meeting minutes.

88 "Christopher Bailey" (3537529344)
00:08:54.209 --> 00:09:09.911
Going forward now, I understand Mark's apprehension about the agenda language and the fact that every point is not in here. However, that is

not the requirement for open government DC to provide every point of every point of contact that.

89 "Marc Fetterman" (280920064)
00:09:09.911 --> 00:09:14.205
But we just want to do list the people in the meeting Chris.

90 "Christopher Bailey" (3537529344)
00:09:14.205 --> 00:09:17.789
Correct that that's an oversight. Yeah, that's an oversight.

91 "Christopher Bailey" (3537529344)
00:09:21.689 --> 00:09:28.679
All right, there is a, uh, vote, uh, emotion. Excuse me and it's been 2nd on the floor.

92 "Christopher Bailey" (3537529344)
00:09:28.679 --> 00:09:34.148
Or the adoption of the agenda, supposedly meeting minutes.

93 "Matt Borger" (596337408)
00:09:34.148 --> 00:09:36.289
Why don't we just do a roll call vote Chris? Real quick on.

94 "Christopher Bailey" (3537529344)
00:09:36.289 --> 00:09:43.139
That's what Thank you. Um, I'm gonna have to because we do have objection if, if it wasn't if there wasn't any objections.

95 "Christopher Bailey" (3537529344)
00:09:43.139 --> 00:09:47.819
I could do a blank it, but I'm going to do a roll call. Hold on this.

96 "Christopher Bailey" (3537529344)
00:09:57.509 --> 00:10:02.819
Apologies, I'm trying to get my.

97 "Christopher Bailey" (3537529344)
00:10:08.249 --> 00:10:23.099
Where's Where's Where's it? Here we go.

98 "Christopher Bailey" (3537529344)
00:10:23.099 --> 00:10:32.087
All right all right, well, I saw a roll call vote on the meeting minutes, starting with.

99 "Anthony Dale" (1106162176)
00:10:32.087 --> 00:10:35.647
No.

100 "Christopher Bailey" (3537529344)
00:10:35.647 --> 00:10:36.770
Mark federal.

101 "Marc Fetterman" (280920064)
00:10:36.770 --> 00:10:41.948
Nope.

102 "Christopher Bailey" (3537529344)
00:10:41.948 --> 00:10:46.319
Harrison.

103 "Christopher Bailey" (3537529344)
00:10:46.319 --> 00:10:49.703
Oh, he was no, he's not Mitchell Canter. Excuse me?

104 "harrison " (2725067008)
00:10:49.703 --> 00:10:53.729
I'm here. Can you hear me.

105 "Marc Fetterman" (280920064)
00:10:53.729 --> 00:10:55.265
Yes, for the reason that.

106 "harrison " (2725067008)
00:10:55.265 --> 00:11:00.221
The the parties present or listed, I'm going to vote.

107 "Christopher Bailey" (3537529344)
00:11:00.221 --> 00:11:04.545
Thank you Mitchell Mitchell, I'm going to.

108 "mitchell kannry" (3182865664)
00:11:04.545 --> 00:11:09.149
No, but can I make a suggestion that if we're posting the videos or the
Audios of this.

109 "mitchell kannry" (3182865664)
00:11:09.149 --> 00:11:14.849
This meeting in the future that we can just reference that and move away
with the minutes. So that's all. I have.

110 "Christopher Bailey" (3537529344)
00:11:14.849 --> 00:11:26.369
Well, that was going to be the intent. However, unfortunately, we cannot.
The bylaws require that a, a now, it says a.

111 "Christopher Bailey" (3537529344)
00:11:26.369 --> 00:11:42.719

Capture of the meeting either video or transcript. We are uploading transcript because there actually is a data limitation to open D. C dot com website web portal. So we are uploading the transcript.

112 "Christopher Bailey" (3537529344)
00:11:42.719 --> 00:11:54.263
For each meeting into that, so we are not uploading the video and we're not uploading the audio recording cause we just don't have the bandwidth to do that. We're we are uploading the transcript.

113 "mitchell kannry" (3182865664)
00:11:54.263 --> 00:11:57.527
Thank you for that. All right. No problem.

114 "Christopher Bailey" (3537529344)
00:11:57.527 --> 00:12:01.290
And your vote was no on that.

115 "mitchell kannry" (3182865664)
00:12:01.290 --> 00:12:04.215
Correct Mitchell votes no, thank you.

116 "Christopher Bailey" (3537529344)
00:12:04.215 --> 00:12:06.772
Uh, cases start over.

117 "casey studhalter" (836382464)
00:12:06.772 --> 00:12:09.554
No.

118 "Christopher Bailey" (3537529344)
00:12:09.554 --> 00:12:14.639
Customer and.

119 "Christopher Bailey" (3537529344)
00:12:14.639 --> 00:12:18.193
I have I have him as present. I don't know.

120 "Marc Fetterman" (280920064)
00:12:18.193 --> 00:12:19.851
He's here.

121 "Christopher Bailey" (3537529344)
00:12:19.851 --> 00:12:24.299
I had him as president. Sorry uh, Keith Parsons.

122 "keith.parsons" (133187072)
00:12:27.373 --> 00:12:31.749
Um.

123 "Christopher Bailey" (3537529344)
00:12:31.749 --> 00:12:41.232
Uh, Michael Brown, we have enough to know for the motion to.

124 "Michael Brown" (2736486400)
00:12:41.232 --> 00:12:49.291
I was going to say, we've got enough no's motion doesn't care. It just
yeah.

125 "Christopher Bailey" (3537529344)
00:12:49.291 --> 00:12:54.193
Okay, motion does not carry the meeting minutes are not adopted.

126 "Matt Borger" (596337408)
00:12:54.193 --> 00:12:56.212
And we still all have to vote, though, if you can.

127 "Anthony Dale" (1106162176)
00:12:56.212 --> 00:13:02.352
Yeah, I think so. Mr. if we call the roll call, everyone still has to
deploy it. It'd be different. I think.

128 "Christopher Bailey" (3537529344)
00:13:02.352 --> 00:13:10.049
Understood Thank you and I've got Jeff. Uh, and.

129 "Christopher Bailey" (3537529344)
00:13:10.049 --> 00:13:14.414
I'll vote no, and Matt order.

130 "Matt Borger" (596337408)
00:13:14.414 --> 00:13:27.650
I won't know as well I do have a question though. Again. I know you said
the transcript it's uploaded. So who's taking the the transcript is that
just someone goes back to the audio and then read it all? I think it's
an.

131 "harrison " (2725067008)
00:13:27.650 --> 00:13:35.731
Yeah, okay.

132 "Christopher Bailey" (3537529344)
00:13:35.731 --> 00:13:36.854
Alright, thank you. Yeah.

133 "casey studhalter" (836382464)
00:13:36.854 --> 00:13:39.532
Webex produces that.

134 "Christopher Bailey" (3537529344)

00:13:39.532 --> 00:13:42.611
Correct. All right.

135 "Anthony Dale" (1106162176)
00:13:42.611 --> 00:13:46.725
I have a question after the vote if that's okay about that.

136 "Christopher Bailey" (3537529344)
00:13:46.725 --> 00:13:49.392
Uh, is it pertaining to the meeting minutes?

137 "Anthony Dale" (1106162176)
00:13:49.392 --> 00:13:56.729
Yeah, I guess if we're doing transcript who's verifying with the, which
is, you know, I use it for many things. Sometimes it.

138 "Anthony Dale" (1106162176)
00:13:56.729 --> 00:14:04.211
Things that are not to use the wrong word. So who's verifying the
transcript.

139 "Christopher Bailey" (3537529344)
00:14:04.211 --> 00:14:20.339
Um, I don't, I don't really I don't really know if if, uh, we're
verifying the transcript we, as you can you all still see my screen with
the Thank you the disapproved a meeting um.

140 "Christopher Bailey" (3537529344)
00:14:20.339 --> 00:14:25.829
So, if you notice here, we're going through the transcript.

141 "Christopher Bailey" (3537529344)
00:14:25.829 --> 00:14:34.619
And it'll say we, we give a 1 sentence 2 sentence of a point. And then we
note in the transcript where that's located.

142 "Christopher Bailey" (3537529344)
00:14:34.619 --> 00:14:43.259
That's how we're, we're providing information of location. Um, I, I don't
plan on deviating from this type.

143 "Christopher Bailey" (3537529344)
00:14:43.259 --> 00:14:48.539
Because we are not obligated to actually put any information in the
meeting minutes.

144 "Christopher Bailey" (3537529344)
00:14:48.539 --> 00:14:56.009
So, and I wanted to bring that up, but cause I've gone through Vega with
this, I've gone to our legislative affairs, the meeting minutes.

145 "Christopher Bailey" (3537529344)
00:14:56.009 --> 00:15:08.609
Do not have to reference every point every idea this was I thought the best way in order to provide a, an identification of where each and every point that is.

146 "Christopher Bailey" (3537529344)
00:15:08.609 --> 00:15:25.979
Brought up as well as access to the entire agenda. So that's that's what this was. And it there is. No, and I'll say it again, there is no requirement not in the bylaws, not by open government DC, or.

147 "Christopher Bailey" (3537529344)
00:15:25.979 --> 00:15:31.329
For the meeting minutes to list any points other than what the meeting was to discuss.

148 "Marc Fetterman" (280920064)
00:15:31.329 --> 00:15:35.891
No, I agree Chris. I guess that's not my I guess that wasn't my question. Mr. chairman.

149 "Anthony Dale" (1106162176)
00:15:35.891 --> 00:15:39.389
My my concern is that if the AI is.

150 "Anthony Dale" (1106162176)
00:15:39.389 --> 00:15:48.853
If we're using a, I, to record, you know, is not perfect. So, you know, when I look at other governmental bodies, there's someone who verifies to the transcript is actually correct.

151 "Christopher Bailey" (3537529344)
00:15:48.853 --> 00:16:02.949
And people aren't perfect either hence why this agenda is not the meeting minutes are not correct so, I totally I totally agree with you, but we're, we're moving with that. It's the is the lesser of 2 evils on this.

152 "Marc Fetterman" (280920064)
00:16:02.949 --> 00:16:08.149
But I think Chris, this is mark with Anthony's point. You know, there are so many unusual words that we.

153 "Marc Fetterman" (280920064)
00:16:08.149 --> 00:16:17.930
Use in building construction. Um, I think Anthony is raising a very valid issue when I look at other transcripts. None of them are ever accurate.

154 "Christopher Bailey" (3537529344)

00:16:17.930 --> 00:16:20.594
And I will agree with that. I'm not denying the, it's.

155 "Marc Fetterman" (280920064)
00:16:20.594 --> 00:16:26.352
But, I mean, if if we're going to depend on transcripts, then somebody
has to review the transcript.

156 "Christopher Bailey" (3537529344)
00:16:26.352 --> 00:16:45.799
Transcript is being reviewed as I've just mentioned also. I've also
mentioned that we cannot upload the video or audio, because we do not
have the bandwidth to do. So so, therefore we are going to use the
transcript and we are going to parse it. Like, we have done in the
meeting, the failed meeting agenda as it's shown and that's where we have
at. It has been better than.

157 "Christopher Bailey" (3537529344)
00:16:45.799 --> 00:16:48.809
Previously, we were doing, so that's.

158 "Christopher Bailey" (3537529344)
00:16:48.809 --> 00:16:54.689
That's that's the direction we're going in. Uh, we, we definitely will
tweak this and we definitely will make sure that.

159 "Christopher Bailey" (3537529344)
00:16:54.689 --> 00:17:01.357
Uh, some of the comments that have been mentioned here that are very good
and and we'll take it take into consideration or done.

160 "Marc Fetterman" (280920064)
00:17:01.357 --> 00:17:02.521
You Chris.

161 "Christopher Bailey" (3537529344)
00:17:02.521 --> 00:17:05.981
Thank you. Okay.

162 "Matt Borger" (596337408)
00:17:05.981 --> 00:17:15.501
Chris sorry to believe this, but when you see it on the bandwidth, I, I'm
lost on that. Do you not have the cloud storage to put it up there?
Because.

163 "Christopher Bailey" (3537529344)
00:17:15.501 --> 00:17:22.638
You get, I mean, not to answer your question, Matt, we get 2 megabytes
per meeting to upload.

164 "Matt Borger" (596337408)
00:17:22.638 --> 00:17:25.662
So you don't have cloud storage to put it up there.

165 "Christopher Bailey" (3537529344)
00:17:25.662 --> 00:17:30.539
It's not, it's not, it's not the, this is the office of open government.

166 "Christopher Bailey" (3537529344)
00:17:30.539 --> 00:17:37.649
So, um, I'm just we have 2 megabytes of upload space for our meetings.

167 "Matt Borger" (596337408)
00:17:41.292 --> 00:17:51.389
Yeah, I follow what you're saying. So you just don't have the cloud
storage with your contract and whatever open DC government is. Okay I got
it. I'll, I'll take that to. I think that's something that our.

168 "Matt Borger" (596337408)
00:17:51.389 --> 00:17:58.839
My industry would probably like to see change so I'll note that for me to
deal with outside this. Okay. Thank you.

169 "Christopher Bailey" (3537529344)
00:17:58.839 --> 00:18:03.160
Um, and Casey used to have your hand up is, is that pertains to the
meeting minutes.

170 "casey studhalter" (836382464)
00:18:03.160 --> 00:18:07.049
Yeah, thank you. Mr. I was just going to, um.

171 "casey studhalter" (836382464)
00:18:07.049 --> 00:18:14.099
Voice my, uh, request that the minutes to provide sufficient detail to
flag. What? Um.

172 "casey studhalter" (836382464)
00:18:14.099 --> 00:18:19.019
Proposals are heard and their status, uh, rather than relying on.

173 "casey studhalter" (836382464)
00:18:19.019 --> 00:18:22.409
A meeting transcript, so I just wanted to confirm.

174 "casey studhalter" (836382464)
00:18:22.409 --> 00:18:27.209
Intent going forward, having recently gone through to confirm.

175 "casey studhalter" (836382464)

00:18:27.209 --> 00:18:34.139
Uh, the content of the notice, a proposal making, which I know is in
today's meeting, uh, it was helpful to refer back to.

176 "casey studhalter" (836382464)
00:18:34.139 --> 00:18:41.099
Previous minutes to be able to ascertain what was approved and when so
just confirming that.

177 "casey studhalter" (836382464)
00:18:41.099 --> 00:18:48.598
Some minutes, I think are pretty essential for being able to do that
historical analysis.

178 "Matt Borger" (596337408)
00:18:48.598 --> 00:18:50.361
2nd case is comment on that. Yeah.

179 "Marc Fetterman" (280920064)
00:18:50.361 --> 00:18:52.918
And i30 I agree. I agree.

180 "Christopher Bailey" (3537529344)
00:18:52.918 --> 00:19:08.058
I, I don't think that you will find that the meeting minute, um,
recording is as bad as you think it is. Um, please take a take a gander
at last week. But again.

181 "Marc Fetterman" (280920064)
00:19:08.058 --> 00:19:15.801
What Casey is saying is that we want the actions with regard to specific
Co changes to be in our meeting minutes.

182 "Christopher Bailey" (3537529344)
00:19:15.801 --> 00:19:18.419
I will 100% agree on that. Okay. Thank you.

183 "Marc Fetterman" (280920064)
00:19:18.419 --> 00:19:20.299
I don't mean to belabor this Thank you.

184 "Christopher Bailey" (3537529344)
00:19:20.299 --> 00:19:25.999
No, no, but you're, you're absolutely right. Uh, in the last few minutes,
we have not voted on any proposals, but.

185 "Marc Fetterman" (280920064)
00:19:25.999 --> 00:19:29.141
Yeah, in the previous meetings, I noticed that.

186 "Christopher Bailey" (3537529344)
00:19:29.141 --> 00:19:37.889
The meeting minutes had specific charts that identified which proposals
were presented, which proposals were approved.

187 "Christopher Bailey" (3537529344)
00:19:37.889 --> 00:19:41.556
So that I intend to continue continue that. So.

188 "Marc Fetterman" (280920064)
00:19:41.556 --> 00:19:54.779
Oh, thank you. Yeah, thank you. Cause, like you said, having reviewed,
uh, minutes, all of the minutes for several tags, it was essential to be
able to have that in a, uh, terse document and not having to go through.

189 "Marc Fetterman" (280920064)
00:19:54.779 --> 00:19:58.053
You know, pages and pages of each minutes.

190 "Christopher Bailey" (3537529344)
00:19:58.053 --> 00:20:06.719
Excellent. Okay. We are now on to I'm gonna stop sharing.

191 "Christopher Bailey" (3537529344)
00:20:06.719 --> 00:20:14.729
I am now going to share the February 15th agenda.

192 "Marc Fetterman" (280920064)
00:20:23.861 --> 00:20:28.337
Thank you.

193 "Christopher Bailey" (3537529344)
00:20:28.337 --> 00:20:34.709
And is can everyone see.

194 "Christopher Bailey" (3537529344)
00:20:34.709 --> 00:20:42.749
And, uh, 2 cases point, notice the code change the, um, Co, change
proposal for reconsideration.

195 "Christopher Bailey" (3537529344)
00:20:42.749 --> 00:20:46.799
Uh, we have none at this at this time.

196 "Christopher Bailey" (3537529344)
00:20:46.799 --> 00:20:58.649
This is where I would put any proposals any votes or any information that
pertains to something that the board would have to put a vote on. So I do
anticipate using that.

197 "Christopher Bailey" (3537529344)
00:20:58.649 --> 00:21:11.039
As a placeholder just to, for Casey's point administrative discussions I
want to before we jump into Jeffries and key Parsons, uh, to the board I
do want to.

198 "Christopher Bailey" (3537529344)
00:21:11.039 --> 00:21:15.179
Uh, also, uh, bring about, uh.

199 "Christopher Bailey" (3537529344)
00:21:15.179 --> 00:21:20.379
Introducing, uh, MS, Nicole uh.

200 "Marc Fetterman" (280920064)
00:21:20.379 --> 00:21:25.298
If she had to leave, she did to take her call my screen.

201 "Christopher Bailey" (3537529344)
00:21:25.298 --> 00:21:31.079
She's still on my screen. Um, oh, she.

202 "Christopher Bailey" (3537529344)
00:21:31.079 --> 00:21:36.149
Duck out. Okay. Well, I'll hold off on introducing her.

203 "Christopher Bailey" (3537529344)
00:21:36.149 --> 00:21:43.259
I know she wasn't on the agenda. That was me. I got her I had the agenda
out on Monday, but.

204 "Christopher Bailey" (3537529344)
00:21:43.259 --> 00:21:51.479
We got confirmation that she could attend, like, right after I sent it.
So all right. Um.

205 "Christopher Bailey" (3537529344)
00:21:51.479 --> 00:22:03.209
So last meeting, we wanted to introduce the new board members, but I had
not put them on the agenda. So they're on the agenda today. Um, I do want
to call.

206 "Christopher Bailey" (3537529344)
00:22:03.209 --> 00:22:06.839
Uh, Mr Keith um.

207 "Christopher Bailey" (3537529344)
00:22:06.839 --> 00:22:10.469
To introduce himself as the latest and greatest board member.

208 "Christopher Bailey" (3537529344)
00:22:10.469 --> 00:22:15.089
Um, and Kate, could you please just do a little quick, uh.

209 "Christopher Bailey" (3537529344)
00:22:15.089 --> 00:22:22.160
Tap dance about who you are, and what you do, and then, um, we've been welcome you to the board.

210 "keith.parsons" (133187072)
00:22:22.160 --> 00:22:26.699
Sure, thanks so much Chris for those of you who have not.

211 "keith.parsons" (133187072)
00:22:26.699 --> 00:22:36.539
Encountered me already in, uh, in my work here at the Department of buildings, I am Keith Parsons. I'm the strategic enforcement administrator.

212 "keith.parsons" (133187072)
00:22:36.539 --> 00:22:40.709
I've been with slash since.

213 "keith.parsons" (133187072)
00:22:40.709 --> 00:22:47.759
Right at the start of the pandemic they hired me in the normal interview and then I walked in.

214 "keith.parsons" (133187072)
00:22:47.759 --> 00:22:52.829
On my 1st day that gave me a computer told me not to come back for a year and a half.

215 "keith.parsons" (133187072)
00:22:52.829 --> 00:22:58.799
So, you know, very used to these sorts of remote meetings by now.

216 "keith.parsons" (133187072)
00:22:58.799 --> 00:23:09.719
Before I was here, I was a lawyer, and, you know, I still am a lawyer. I still pay the money on there. This is my only job.

217 "keith.parsons" (133187072)
00:23:09.719 --> 00:23:18.719
Um, I started off from private practice I did do, um, a lot of litigation in Virginia. I did some.

218 "keith.parsons" (133187072)
00:23:18.719 --> 00:23:24.539
Construction litigation at that time, went into the.

219 "keith.parsons" (133187072)
00:23:24.539 --> 00:23:31.049
District government was an for a while defending the district.

220 "keith.parsons" (133187072)
00:23:31.049 --> 00:23:37.949
In all of the sort of, you know, any ridiculous fact pattern you can
imagine that the district government is done.

221 "keith.parsons" (133187072)
00:23:37.949 --> 00:23:41.909
I got to be the guy that stood up in court and said that it all made
sense.

222 "keith.parsons" (133187072)
00:23:41.909 --> 00:23:45.719
Then I spent some time at DC, Medicaid.

223 "keith.parsons" (133187072)
00:23:45.719 --> 00:23:56.249
Before coming here, so I am excited to do this. My primary perspective is
going to be from the legal perspective, although obviously a lot of.

224 "keith.parsons" (133187072)
00:23:56.249 --> 00:23:59.489
Code experience working here at.

225 "keith.parsons" (133187072)
00:23:59.489 --> 00:24:08.103
This agency, so pleasure to meet John, look forward to working with
y'all. And thank you for having me here.

226 "Marc Fetterman" (280920064)
00:24:08.103 --> 00:24:11.723
Welcome Thank you.

227 "Christopher Bailey" (3537529344)
00:24:11.723 --> 00:24:16.979
Escape, um, I'm checking the.

228 "Christopher Bailey" (3537529344)
00:24:16.979 --> 00:24:23.231
It appears Mr. has not joined us.

229 "2022****58" (3252538624)
00:24:23.231 --> 00:24:27.892
Okay, okay.

230 "Christopher Bailey" (3537529344)

00:24:27.892 --> 00:24:46.519
Um, so unfortunately won't be able to introduce. Mr. but, uh, he is also
another DLB employee is the chief of inspections for the new construction
and build and safety department at the Department of buildings. Um, he's
most of you either have known him through other.

231 "Christopher Bailey" (3537529344)
00:24:46.519 --> 00:25:06.519
Other methods, either during construction, or during, uh, oversight. So
he's a welcome addition to, uh, to the board and in doing. So he's, he's
done much as well as for inspections for oversight review. A lot of code
interpretation. When we're in the building, I use him a lot.

232 "Christopher Bailey" (3537529344)
00:25:06.519 --> 00:25:09.899
Uh, at as a springboard to, uh.

233 "Christopher Bailey" (3537529344)
00:25:09.899 --> 00:25:20.999
Get some of the ideas that we have going on Adobe for it. So I think he's
a welcome in addition to the, to the group, but I will allow him to
introduce himself at a later date.

234 "Christopher Bailey" (3537529344)
00:25:20.999 --> 00:25:24.359
Okay, now 1 time, meat and potatoes.

235 "Christopher Bailey" (3537529344)
00:25:24.359 --> 00:25:32.339
Why we are all here view of the new draft notice.

236 "Christopher Bailey" (3537529344)
00:25:32.339 --> 00:25:51.059
Both rulemaking, uh, about 2 months ago I sent an email out to all the
attack chairs. I was thankful to get responses from, uh, some of you and
and was able to work with you to get, uh, some of the proposals, uh,
taken care of that were or were not, um.

237 "Christopher Bailey" (3537529344)
00:25:51.059 --> 00:25:59.159
We're, we're not in our database as, you know, the folder that we have
and I'm going to.

238 "Christopher Bailey" (3537529344)
00:25:59.159 --> 00:26:03.839
Share my screen real quick. Hopefully you can still see my screen.

239 "Christopher Bailey" (3537529344)
00:26:03.839 --> 00:26:08.189
Um, so this is.

240 "Christopher Bailey" (3537529344)
00:26:08.189 --> 00:26:12.089
The box folder where the keeps its.

241 "Christopher Bailey" (3537529344)
00:26:12.089 --> 00:26:17.729
Keeps us information I do want to make sure that our, uh.

242 "Christopher Bailey" (3537529344)
00:26:17.729 --> 00:26:37.729
Construction and code rulemaking folder is where we are working on, I
have gone through some of your emails. I have looked some of them we
found missing, uh, proposals that were not in the correct place. Uh, some
of them were marked as they, even though they were approved, uh, as.

243 "Christopher Bailey" (3537529344)
00:26:37.729 --> 00:26:46.469
Verified in previous meetings, they were not in the approval folder so
there was a bit of housecleaning that we needed to do in order to verify.

244 "Christopher Bailey" (3537529344)
00:26:46.469 --> 00:26:58.139
Our current set of the proposed rulemaking now, after talking with our
legislative affairs department, and after also going with, um, just to
kind of a, a clean.

245 "Christopher Bailey" (3537529344)
00:26:58.139 --> 00:27:05.399
Uh, going through, identifying the charts dotting the i's crossing the
t's to make sure I still want to go through.

246 "Christopher Bailey" (3537529344)
00:27:05.399 --> 00:27:10.619
The, uh, folders with you to make sure that what is being presented.

247 "Christopher Bailey" (3537529344)
00:27:10.619 --> 00:27:14.939
And the notice is what has been approved I am not.

248 "Christopher Bailey" (3537529344)
00:27:14.939 --> 00:27:30.239
Uh, moving or taking any proposals that have not been heard to the board
into the notice of proposals. Rulemaking. We're, we're, we're putting a
line in the sand and we're saying that if it has not been submitted to
the board for approval.

249 "Christopher Bailey" (3537529344)
00:27:30.239 --> 00:27:38.099

This round, it will not go through. What we will do is we will take what has been approved and verified by the board.

250 "Christopher Bailey" (3537529344)
00:27:38.099 --> 00:27:53.879
And we will verify its contents to be accurate based on what those meeting minutes had brought up. It will take a little bit more time than just the couple of weeks that we've had access to box and access to the actual files. And, of course, with your help as chairs.

251 "Christopher Bailey" (3537529344)
00:27:53.879 --> 00:27:58.709
Attached shares the information that you gave us so that we could compare apples to apples.

252 "Christopher Bailey" (3537529344)
00:27:58.709 --> 00:28:02.579
I'm doing so we've got a.

253 "Christopher Bailey" (3537529344)
00:28:02.579 --> 00:28:06.089
Draft of each, um.

254 "Christopher Bailey" (3537529344)
00:28:06.089 --> 00:28:11.189
Uh, code, uh, code, chapter code, the division.

255 "Christopher Bailey" (3537529344)
00:28:11.189 --> 00:28:16.769
So that we can start with the actual formulating the forms.

256 "Christopher Bailey" (3537529344)
00:28:16.769 --> 00:28:26.249
As well, as getting the packet together, now it is my intention to once we go through the, uh, and hopefully we can get through all of these because.

257 "Christopher Bailey" (3537529344)
00:28:26.249 --> 00:28:29.459
I think we did a pretty short amount of time.

258 "Christopher Bailey" (3537529344)
00:28:29.459 --> 00:28:34.229
Looking at what has been presented and then matching it up against what you've provided.

259 "Christopher Bailey" (3537529344)
00:28:34.229 --> 00:28:54.229
There may be some errors here that we've missed. Um, there's a lot of proposals so, but we do intend to take those and then get a a formal

draft of rulemaking send over to the register. Uh, I do not believe and this has been, uh, my position.

260 "Christopher Bailey" (3537529344)
00:28:54.229 --> 00:29:01.079
Time is of the essence, I don't want to bring this back to a vote. So what I'm going to do is I'm going to.

261 "Christopher Bailey" (3537529344)
00:29:01.079 --> 00:29:05.129
Have the notice of proposed rulemaking created.

262 "Christopher Bailey" (3537529344)
00:29:05.129 --> 00:29:09.809
And then sent off to the register.

263 "Christopher Bailey" (3537529344)
00:29:09.809 --> 00:29:16.499
At which time all of the other eyes and ears of the legislative.

264 "Christopher Bailey" (3537529344)
00:29:16.499 --> 00:29:19.829
Governments bodies that need to look at it will look at it.

265 "Christopher Bailey" (3537529344)
00:29:19.829 --> 00:29:30.119
Uh, we have approved, uh, proposals that have been submitted those approved proposals do not need to be approved again. Um.

266 "Christopher Bailey" (3537529344)
00:29:30.119 --> 00:29:36.359
Unless I'm told different by Leslie fairs, Oprah, or, uh.

267 "Christopher Bailey" (3537529344)
00:29:36.359 --> 00:29:40.739
We do not need to re, approve re, approved those approved proposals.

268 "Christopher Bailey" (3537529344)
00:29:40.739 --> 00:29:50.159
So, that's the goal of this meeting and what my intent is going forward to try to get this. This notice sent out a.

269 "Christopher Bailey" (3537529344)
00:29:50.159 --> 00:29:53.819
Any thoughts any questions on that.

270 "Christopher Bailey" (3537529344)
00:29:53.819 --> 00:30:07.286
None great, uh, any, any thoughts on that before we, uh, before I open it up and open up the 1st, uh, folder.

271 "Nate Bell" (4125284096)
00:30:07.286 --> 00:30:15.449
Well, I would just take a quick moment for us to introduce myself. So I'm
Nate bell on the ledger affairs staff.

272 "Nate Bell" (4125284096)
00:30:15.449 --> 00:30:20.369
He's been recently reassigned taking over for a month.

273 "Nate Bell" (4125284096)
00:30:20.369 --> 00:30:35.069
Um, on these matters, and based on the discussion that Martin that I'd
rather that Chris, and I had earlier, I think is accurate. We are working
to make a compilation.

274 "Nate Bell" (4125284096)
00:30:35.069 --> 00:30:42.449
And, you know, I want to make this, uh, it's a very lengthy
administrative process, more complicated than it needs to be.

275 "Nate Bell" (4125284096)
00:30:42.449 --> 00:30:49.112
But we will certainly welcome any feedback than anyone might have.

276 "Christopher Bailey" (3537529344)
00:30:49.112 --> 00:30:54.359
Thank you. Thank you. Okay.

277 "Christopher Bailey" (3537529344)
00:30:59.099 --> 00:31:03.959
Starting at the top. Oh. And I also want to bring up.

278 "Christopher Bailey" (3537529344)
00:31:03.959 --> 00:31:10.233
Can you all see these Excel spreadsheet or is it do you only see the 1
proposal in front of, you.

279 "Marc Fetterman" (280920064)
00:31:10.233 --> 00:31:14.172
We only see the proposal. Okay. I need to.

280 "Christopher Bailey" (3537529344)
00:31:14.172 --> 00:31:19.799
I want to be able to share the spreadsheet as well as the proposal at the
same time.

281 "Christopher Bailey" (3537529344)
00:31:19.799 --> 00:31:25.589
Um, let me try it this way.

282 "Christopher Bailey" (3537529344)
00:31:25.589 --> 00:31:29.039
Okay.

283 "Christopher Bailey" (3537529344)
00:31:29.039 --> 00:31:35.189
Okay.

284 "Christopher Bailey" (3537529344)
00:31:43.919 --> 00:31:48.854
Now, do you see both proposals and chart.

285 "Marc Fetterman" (280920064)
00:31:48.854 --> 00:31:52.372
Yep, I can't read them, but I see. Em, both.

286 "Christopher Bailey" (3537529344)
00:31:52.372 --> 00:32:00.475
Let me fix that.

287 "Christopher Bailey" (3537529344)
00:32:03.470 --> 00:32:06.779
Darcy, I don't want to go to plumbing.

288 "Christopher Bailey" (3537529344)
00:32:06.779 --> 00:32:20.304
Fuel gas.

289 "2024****00" (7373568)
00:32:20.304 --> 00:32:24.146
Okay.

290 "Christopher Bailey" (3537529344)
00:32:24.146 --> 00:32:35.969
There we go all right on the screen on the right and I'll try to make it
as large as I can, but I, I don't want to lose the information here. Some
of the approvals. So hopefully you all can see what what I'm trying to
present here.

291 "Christopher Bailey" (3537529344)
00:32:35.969 --> 00:32:39.509
Is we've got, uh, 2 proposals.

292 "Christopher Bailey" (3537529344)
00:32:39.509 --> 00:32:48.839
Or fuel gas 1 of these proposals, 1 is going to be, uh, for the deleting
a chapter 1, which is standard.

293 "Christopher Bailey" (3537529344)

00:32:48.839 --> 00:32:52.679
And the other is addressing the existing use the kitchen field gas
appliances.

294 "Christopher Bailey" (3537529344)
00:32:52.679 --> 00:32:56.399
Both of these were approved on these days. I hope you can still see that.

295 "Christopher Bailey" (3537529344)
00:32:56.399 --> 00:33:00.869
And.

296 "Christopher Bailey" (3537529344)
00:33:00.869 --> 00:33:06.599
This is why do I have the wrong 1 up? I need to go to mechanical. I
apologize.

297 "Christopher Bailey" (3537529344)
00:33:06.599 --> 00:33:11.699
Okay, cool.

298 "Christopher Bailey" (3537529344)
00:33:11.699 --> 00:33:14.819
Chemical here we go.

299 "Christopher Bailey" (3537529344)
00:33:17.849 --> 00:33:21.749
So, we're going to have to add these 2.

300 "Christopher Bailey" (3537529344)
00:33:21.749 --> 00:33:27.419
You guys 1 and 5 1.

301 "Christopher Bailey" (3537529344)
00:33:27.419 --> 00:33:31.609
To the mechanical and that's that's our intent is to add these 2.

302 "Marc Fetterman" (280920064)
00:33:31.609 --> 00:33:37.381
They're already in there, Chris, there's a separate fuel gas folder.

303 "Christopher Bailey" (3537529344)
00:33:37.381 --> 00:33:46.409
I might have missed it because this right here is this is 1 on 1. Oh, I'm
sorry. It didn't have the, uh, at the top. This is it right here?

304 "Christopher Bailey" (3537529344)
00:33:46.409 --> 00:33:51.386
So, these, these, these 2 proposals are going to be moved forward.

305 "Marc Fetterman" (280920064)
00:33:51.386 --> 00:33:56.723
Fuel gas has no issues. Fuel. Gas is fine as presented.

306 "Christopher Bailey" (3537529344)
00:33:56.723 --> 00:34:07.379
And thank you, Mark, this was kind of like just a 1st run. So, just to
let, you know, I'm going to try to go faster. But if you have any
questions of how I'm doing it, just chime in.

307 "Christopher Bailey" (3537529344)
00:34:07.379 --> 00:34:10.859
I, I, I really want to get through these, these notices here so.

308 "Christopher Bailey" (3537529344)
00:34:10.859 --> 00:34:14.339
Now, going to plumbing.

309 "Christopher Bailey" (3537529344)
00:34:14.339 --> 00:34:21.091
Okay.

310 "Marc Fetterman" (280920064)
00:34:21.091 --> 00:34:28.775
Yeah, plumbing has issues Chris, as I pointed out in my January 16 memo
to you.

311 "Christopher Bailey" (3537529344)
00:34:28.775 --> 00:34:36.449
Correct and those.

312 "Christopher Bailey" (3537529344)
00:34:36.449 --> 00:34:40.052
The, the issues that we're having, I don't believe they need to go back
to the tag.

313 "Marc Fetterman" (280920064)
00:34:40.052 --> 00:34:53.235
I think to make sure none of the issues that Mark Fetterman speaks of
today um, uh, have not already been approved. These are only
typographical issues in the documents that you're showing us.

314 "Christopher Bailey" (3537529344)
00:34:53.235 --> 00:35:06.209
And thank you mark for being on cue on that, because that's exactly how I
would like to just move forward. And we, we are going and thank you so
much for the email because we have, like I said, did a comparison apples
to.

315 "Christopher Bailey" (3537529344)

00:35:06.209 --> 00:35:14.579
Orange is to make sure that what we are in the room making will have those changes that are move forward, but if there's anything withdrawn and this is just a point.

316 "Christopher Bailey" (3537529344)
00:35:14.579 --> 00:35:19.229
Anything withdrawn or deferred, or disapproved will not go.

317 "Christopher Bailey" (3537529344)
00:35:19.229 --> 00:35:31.829
So, the tax not supposed to yes, thank you mark but that's the point. You may have a withdrawn application.

318 "Christopher Bailey" (3537529344)
00:35:31.829 --> 00:35:35.914
You will have you'll have to bring that back during the 2nd round.

319 "Marc Fetterman" (280920064)
00:35:35.914 --> 00:35:38.280
Absolutely, yep. Thank you.

320 "Christopher Bailey" (3537529344)
00:35:38.280 --> 00:35:47.917
And you'll, you're going to find a couple of those here so I just wanted to point out if anybody had any question what happens with those that's what happens with them. Okay.

321 "Marc Fetterman" (280920064)
00:35:47.917 --> 00:35:51.389
So, uh, Chris in your proposed, notice.

322 "Marc Fetterman" (280920064)
00:35:51.389 --> 00:35:58.077
A plumbing had there were issues with the, uh, notice, but you're not referring to the notice.

323 "Christopher Bailey" (3537529344)
00:35:58.077 --> 00:36:16.009
No, I'm referring to the proposals because I know and this will come up because I had talks with other other tag chairs. I know that there were missing proposals. Some of them like I mentioned before they were in other folders, or they were under the building code.

324 "Christopher Bailey" (3537529344)
00:36:16.009 --> 00:36:29.249
They were, they were just human error, you know, that there's a lot of proposals and some of them were just misplaced. Some were approved, but not in the approval folder. So we found those and we had to go back to the.

325 "Christopher Bailey" (3537529344)
00:36:29.249 --> 00:36:34.559
Meeting minutes to verify if they, if they were actually approved. So.

326 "Christopher Bailey" (3537529344)
00:36:34.559 --> 00:36:40.019
All right I am now on residential.

327 "Christopher Bailey" (3537529344)
00:36:40.019 --> 00:36:46.949
Residential, so, let me go to residential, not residential energy. I'm just sending you the.

328 "Christopher Bailey" (3537529344)
00:36:46.949 --> 00:36:52.049
Cool.

329 "Christopher Bailey" (3537529344)
00:36:52.049 --> 00:37:14.389
We have an appendix, uh, this was approved so you'll, you'll notice that this is separate. I probably will combine residential energy and residential. It depends on how the, uh, the legislative process goes. It. It.

330 "Christopher Bailey" (3537529344)
00:37:14.389 --> 00:37:29.249
They all go into 1, big, huge document. If many of you that serve on the board back in the day. Jill Stern was the chairman of the CC board chair woman of the CC board. During that time. She has a huge.

331 "Christopher Bailey" (3537529344)
00:37:29.249 --> 00:37:33.359
Document of all the proposals in 1.

332 "Christopher Bailey" (3537529344)
00:37:33.359 --> 00:37:38.129
Document right now we have a broken out per discipline.

333 "Christopher Bailey" (3537529344)
00:37:38.129 --> 00:37:48.518
So, there, that might be a change, but we will work with the best way that the register wants to see it. Yep. And we'll, we'll move forward in that manner, but a little bit of information.

334 "Marc Fetterman" (280920064)
00:37:48.518 --> 00:37:54.539
On residential, Chris, I pointed out to you that there were 11 code changes that are missing.

335 "Christopher Bailey" (3537529344)
00:37:54.539 --> 00:38:01.420
Yes, they are, they're actually in another folder, those were some that
were missing and I can go back and show you.

336 "Marc Fetterman" (280920064)
00:38:01.420 --> 00:38:05.646
No, but they're also they're not in the proposed notice of rule making
yet.

337 "Christopher Bailey" (3537529344)
00:38:05.646 --> 00:38:25.639
That's something that we found last week. Uh, I, thank you for. Bringing
that up. They are not. I do need to move them in. Okay, this is the
behind the scenes work. Uh, and thanks. Uh, thanks to, uh, Nate, uh,
Nathan bell to help us out with that because, uh, we actually have to
get.

338 "Christopher Bailey" (3537529344)
00:38:25.639 --> 00:38:32.670
Touch with Ahmad to actually find out where some of the stuff was, uh.

339 "Christopher Bailey" (3537529344)
00:38:32.670 --> 00:38:36.150
Everyone's human, um, there were just.

340 "Christopher Bailey" (3537529344)
00:38:36.150 --> 00:38:43.410
Information misplaced, and some were not brought forward and when I say
not broad for it. Let me let me be specific.

341 "Christopher Bailey" (3537529344)
00:38:43.410 --> 00:38:49.440
They were approved, but not put into the folder for the notice of
proposals. We're making.

342 "Christopher Bailey" (3537529344)
00:38:49.440 --> 00:38:55.167
So, and that's just a clear clear that we have to uh, correct.

343 "Marc Fetterman" (280920064)
00:38:55.167 --> 00:39:01.560
And, uh, Chris, I defer to Michael Brown on the.

344 "Marc Fetterman" (280920064)
00:39:01.560 --> 00:39:05.790
Residential public comments cause I know there were quite a few of those.

345 "Marc Fetterman" (280920064)
00:39:05.790 --> 00:39:10.346

Hello.

346 "Michael Brown" (2736486400)
00:39:10.346 --> 00:39:19.089
Potential energy comments as we dealt with all of the rest and
residential ones. We also dealt with all of the rest.

347 "Marc Fetterman" (280920064)
00:39:19.089 --> 00:39:24.741
Oh, great cause it's not recorded in our, uh, the documents that Chris is
showing us.

348 "Michael Brown" (2736486400)
00:39:24.741 --> 00:39:32.769
Yeah, we need to go pull our documents from 2022. I'm sorry, Mike, you
broke up.

349 "Michael Brown" (2736486400)
00:39:32.769 --> 00:39:38.850
Yeah, well we'll have to go back to the minutes from 2022 when we voted
on all of the residential.

350 "Michael Brown" (2736486400)
00:39:38.850 --> 00:39:46.170
Uh, all of the residential amendments with the exception of the last 2 or
3 that are on here.

351 "Matt Borger" (596337408)
00:39:53.405 --> 00:39:56.460
This is Matt. I, I have a question as we're going through this cause I.

352 "Matt Borger" (596337408)
00:39:56.460 --> 00:40:00.210
I'm a little confused exactly what we're doing. I thought.

353 "Matt Borger" (596337408)
00:40:00.210 --> 00:40:05.220
That you asked for the tags, provide you something I have to comment on
that separately, but.

354 "Matt Borger" (596337408)
00:40:05.220 --> 00:40:13.140
You're going to repost this proposed rulemaking so we can verify that. It
has all the stuff in there, right? For us to review.

355 "Matt Borger" (596337408)
00:40:13.140 --> 00:40:19.860
Because as Mark's brought up, there's like, stuff that's not in the
proposed rulemaking that we need to make sure it's included.

356 "Christopher Bailey" (3537529344)
00:40:23.688 --> 00:40:28.290
In notice of proposals we're making is different from the proposals
submitted.

357 "Christopher Bailey" (3537529344)
00:40:28.290 --> 00:40:32.262
Yes, I agree with that statement.

358 "Matt Borger" (596337408)
00:40:32.262 --> 00:40:36.810
So so, like, the 11:00:11:the things that Mark has brought about
residential.

359 "Matt Borger" (596337408)
00:40:36.810 --> 00:40:40.710
They're not in the notice, the draft notes were making.

360 "Matt Borger" (596337408)
00:40:40.710 --> 00:40:49.318
You're going to send a new draft those polls weekend, so we can verify
that all the things that weren't in. It are now back in it. Correct? So
we can see that.

361 "Christopher Bailey" (3537529344)
00:40:49.318 --> 00:40:53.564
I, I definitely can send a draft. I don't intend to vote.

362 "Marc Fetterman" (280920064)
00:40:53.564 --> 00:40:58.205
No, no, no, I'm not asking for a vote. We've already voted on this. This
is what we've already vote on.

363 "Matt Borger" (596337408)
00:40:58.205 --> 00:41:08.310
So, there's I don't want to tell the head of my tab, but I just there's
things that are missing. And so if we identify them, then you're going to
resend out.

364 "Matt Borger" (596337408)
00:41:08.310 --> 00:41:14.828
Whatever that document is, so we can say, yes, that now includes
everything that we've voted on and approved already previously.

365 "Christopher Bailey" (3537529344)
00:41:14.828 --> 00:41:16.801
Thank you for clarifying. Yeah.

366 "Matt Borger" (596337408)
00:41:16.801 --> 00:41:21.010

Okay, that's what I just wanted to make sure. Okay.

367 "Nate Bell" (4125284096)
00:41:21.010 --> 00:41:27.570
Yeah, we can certainly share that document once it's compiled. Um, we're not trying to.

368 "Nate Bell" (4125284096)
00:41:27.570 --> 00:41:31.946
The obstinate or anything like.

369 "Marc Fetterman" (280920064)
00:41:31.946 --> 00:41:39.420
No, and Nate, it's mark as, as Chris pointed out and as I've mentioned before we're all human and we all make mistakes.

370 "Marc Fetterman" (280920064)
00:41:39.420 --> 00:41:43.206
It's 1 of the neat things about being a human.

371 "Nate Bell" (4125284096)
00:41:43.206 --> 00:41:46.447
Yes, thank you.

372 "Christopher Bailey" (3537529344)
00:41:46.447 --> 00:41:54.506
Is that true? That I'm, I'm not saying to you right now I'm in, um, what am I am? I'm swimming pool and spark.

373 "Marc Fetterman" (280920064)
00:41:54.506 --> 00:41:59.789
Here there are no changes so cool. Swimming pool spot is fine.

374 "Christopher Bailey" (3537529344)
00:41:59.789 --> 00:42:07.307
Yeah, thank you. Mark, you're finishing the sentences here. I'll tell you. Well, no, I did the research and sent it to you.

375 "Anthony Dale" (1106162176)
00:42:07.307 --> 00:42:10.710
Mr. chairman this is Anthony. I'm sorry. Can I jump in here?

376 "Anthony Dale" (1106162176)
00:42:10.710 --> 00:42:16.980
I I guess what's happening. I thought that the information was requested from the tags. I don't know.

377 "Anthony Dale" (1106162176)
00:42:16.980 --> 00:42:23.370

I was trying to make sure this is the best use of the board's time by having 1, the tag chairs.

378 "Anthony Dale" (1106162176)
00:42:23.370 --> 00:42:26.430
We're gonna identify the proposals that need to be included.

379 "Anthony Dale" (1106162176)
00:42:26.430 --> 00:42:32.400
We would get the entire document verify. It is it this is the best use of the entire time, too.

380 "Anthony Dale" (1106162176)
00:42:32.400 --> 00:42:36.004
Do this at this moment in time and instance.

381 "Christopher Bailey" (3537529344)
00:42:36.004 --> 00:42:56.310
You're you're right on the 1st point that yes, the tags were asked to verify this. However, when we actually verified it, there were some discrepancies. There were some issues that were actually found those issues. I'm going through the ones that really don't have any issues. But Mark has already pointed out.

382 "Christopher Bailey" (3537529344)
00:42:56.310 --> 00:43:01.950
Uh, the, um, uh, there there was 1 issues that with the existing.

383 "Christopher Bailey" (3537529344)
00:43:01.950 --> 00:43:21.950
I apologize not existing, um, energy, residential energy code that we have to have a, but we haven't even gotten there yet, but that was 1 point. So there's also some grammatical errors that we have to check. I also showed you that some of the notice propose rulemaking. Are missing from a, from a file.

384 "Christopher Bailey" (3537529344)
00:43:21.950 --> 00:43:26.220
Those what we are verifying here today, then.

385 "Christopher Bailey" (3537529344)
00:43:26.220 --> 00:43:31.110
Once that's all done, we will have to send out another email or.

386 "Christopher Bailey" (3537529344)
00:43:31.110 --> 00:43:35.010
Some sort of, uh, access to a box folder.

387 "Christopher Bailey" (3537529344)
00:43:35.010 --> 00:43:39.120

So that you all get another, another bite at the Apple.

388 "Christopher Bailey" (3537529344)
00:43:39.120 --> 00:43:43.140
And I do not intend to vote on that, but I do want you to see.

389 "Christopher Bailey" (3537529344)
00:43:43.140 --> 00:43:53.612
Everything is discussed here. Uh, does that answer your question?

390 "Anthony Dale" (1106162176)
00:43:53.612 --> 00:43:57.810
I guess it does in a way, I still Smith, and I think that.

391 "Anthony Dale" (1106162176)
00:43:57.810 --> 00:44:08.610
Some this can be done for coordination between yourself and new tags.
Cheers, identify this information. I, I'm just, I just don't know if this
is the best use of the entire boards time.

392 "Anthony Dale" (1106162176)
00:44:08.610 --> 00:44:17.409
But, of course, defer to you, but I, I just think that this is some of
the tag chairs can easily identify decisions.

393 "Christopher Bailey" (3537529344)
00:44:17.409 --> 00:44:20.730
Thank you. Okay. Um.

394 "Christopher Bailey" (3537529344)
00:44:20.730 --> 00:44:29.550
Well, we're, we're breezing through this, so there's, there's not going
to be too much of time left. I don't have any objections on that.

395 "Christopher Bailey" (3537529344)
00:44:29.550 --> 00:44:34.260
But this is what the board typically does and and.

396 "Christopher Bailey" (3537529344)
00:44:34.260 --> 00:44:38.400
Several meetings several years in several code seconds.

397 "Christopher Bailey" (3537529344)
00:44:38.400 --> 00:44:45.660
We've, we've gone through this time and time again. Is there a better way
to do it? Possibly, but this is.

398 "Christopher Bailey" (3537529344)
00:44:45.660 --> 00:44:52.740
You know what we've always done I have.

399 "Christopher Bailey" (3537529344)
00:44:52.740 --> 00:44:59.970
I'm gonna move on to the next meeting.

400 "Christopher Bailey" (3537529344)
00:44:59.970 --> 00:45:07.740
There were no changes in plumbing, so.

401 "Christopher Bailey" (3537529344)
00:45:11.910 --> 00:45:16.431
We, we talked about residential, so I'm, I'm out of sync right now. I
apologize.

402 "Marc Fetterman" (280920064)
00:45:16.431 --> 00:45:19.152
No, I think we're done with residential. Thank you.

403 "Christopher Bailey" (3537529344)
00:45:19.152 --> 00:45:28.575
Yeah, no, somehow I went back because I went to residential with the
plumbing and with this swimming pool we were done with those. Yes
mechanical.

404 "Marc Fetterman" (280920064)
00:45:28.575 --> 00:45:35.010
Mechanical, um, the, uh.

405 "Marc Fetterman" (280920064)
00:45:35.010 --> 00:45:47.280
There's a, uh, a type well, I, there's a typo in the proposed notice of
rule making that. I've mentioned to you and.

406 "Marc Fetterman" (280920064)
00:45:47.280 --> 00:45:51.810
8 code changes are not, um.

407 "Marc Fetterman" (280920064)
00:45:51.810 --> 00:45:59.461
Listed and I've sent that to you in a document, um, uh, so that they
could be added.

408 "Christopher Bailey" (3537529344)
00:45:59.461 --> 00:46:04.620
I just want to make sure we, we were able to find.

409 "Christopher Bailey" (3537529344)
00:46:04.620 --> 00:46:09.948
So, fuel gas mechanical are in the same folder, but.

410 "Marc Fetterman" (280920064)
00:46:09.948 --> 00:46:12.505
Fuel gas is a separate folder.

411 "Christopher Bailey" (3537529344)
00:46:12.505 --> 00:46:19.350
No, that there's fuel gas in the mechanical folder is what I'm saying. So I'm going to have to verify.

412 "Christopher Bailey" (3537529344)
00:46:19.350 --> 00:46:22.914
Where those other 8 where we have not gone in and found the.

413 "Marc Fetterman" (280920064)
00:46:22.914 --> 00:46:31.350
Okay, um, as I in in the memo to you, I pointed out the date they were approved so it's easy to go back and look at the meeting minutes.

414 "Marc Fetterman" (280920064)
00:46:31.350 --> 00:46:45.270
And verify that 1 of them has to do with boilers and the other ones are all part of that, uh, refrigerant change to that new federal standard, using a.

415 "Marc Fetterman" (280920064)
00:46:49.230 --> 00:46:55.233
And these are all in that January 16th memo to, you.

416 "Christopher Bailey" (3537529344)
00:46:55.233 --> 00:46:59.220
Hello.

417 "Christopher Bailey" (3537529344)
00:46:59.220 --> 00:47:06.865
Uh, property maintenance it didn't it didn't have anything, but, uh, I just want to.

418 "Marc Fetterman" (280920064)
00:47:06.865 --> 00:47:14.596
To property maintenance listing is missing. Uh, 6 code changes. Chris yeah. Everything from the November.

419 "Matt Borger" (596337408)
00:47:14.596 --> 00:47:19.440
For meeting is not included in the property maintenance.

420 "Matt Borger" (596337408)
00:47:19.440 --> 00:47:24.270
Portion of this I, I wanted to flag that and also.

421 "Matt Borger" (596337408)
00:47:24.270 --> 00:47:39.960
I was able to get in the box document last week and then this week I've tried to reset my password 3 times because I, I don't know, I just don't have access to the box document anymore. And the case you just emailed me and said that.

422 "Matt Borger" (596337408)
00:47:39.960 --> 00:47:57.540
Apparently, you're sending emails to a dot an at DC dot Gov email address that I don't have didn't know. I have or have access to. So, I just want to make sure you have my correct email address because I can't access the documents anymore but I've talked to mark who has reviewed it as well and it's.

423 "Matt Borger" (596337408)
00:47:57.540 --> 00:48:02.558
All of the November code change proposal we voted on are not included.

424 "Christopher Bailey" (3537529344)
00:48:02.558 --> 00:48:10.653
So, we weren't able to find those as well. So I'm wondering this is all we had, we had.

425 "Marc Fetterman" (280920064)
00:48:10.653 --> 00:48:15.935
3, right these are in the November 2nd 2023 meeting.

426 "Matt Borger" (596337408)
00:48:15.935 --> 00:48:21.540
Chris, yeah, there's like 6, I think it's 6 or 7 coaching proposals. Yes, 6.

427 "Matt Borger" (596337408)
00:48:21.540 --> 00:48:26.160
That aren't there you don't you only have chapters 5:3:and 2 there.

428 "Matt Borger" (596337408)
00:48:26.160 --> 00:48:36.732
And we may change it to all almost all the other chapters, except, I think 1, um, again, I don't I can't access the box document right now. Um, but that's my recollection.

429 "Marc Fetterman" (280920064)
00:48:36.732 --> 00:48:46.160
Yeah, and and again, Chris, I got this information from looking at the meeting minutes. Not using the box document cause I, too am not able to access it regularly. I.

430 "Marc Fetterman" (280920064)

00:48:46.160 --> 00:48:52.833
Can usually get in, but sometimes you just won't let me in.

431 "Christopher Bailey" (3537529344)
00:48:52.833 --> 00:49:00.960
I'm going to have I'm going to have trees turn Chris, put in her email address in.

432 "Christopher Bailey" (3537529344)
00:49:00.960 --> 00:49:09.450
We'll have to reach out to every board member, using every known email address and I will also give provide her email address so that we can all because this.

433 "Christopher Bailey" (3537529344)
00:49:09.450 --> 00:49:15.034
You brought this up at the beginning of the meeting that we're sending out correspondence to you're not getting.

434 "Matt Borger" (596337408)
00:49:15.034 --> 00:49:19.590
From the case, you just forwarded me the email that apparently it's going to some.

435 "Matt Borger" (596337408)
00:49:19.590 --> 00:49:28.731
At DC dot Gov email address that I don't even know how to access. So, I emailed you Chris again, this morning that my Donahoe email is the.

436 "Marc Fetterman" (280920064)
00:49:28.731 --> 00:49:35.294
The email address that I have 1 yeah, that's that's the 1. I have access to.

437 "Matt Borger" (596337408)
00:49:35.294 --> 00:49:44.095
And box box tells me I don't have credentials even get in. It says that it won't let me reset my password because it says my email address. I don't know what.

438 "Christopher Bailey" (3537529344)
00:49:44.095 --> 00:49:55.940
I know why, um, and and this, this is this is ridiculous in 2024, but had access to box. He was the owner.

439 "Christopher Bailey" (3537529344)
00:49:55.940 --> 00:50:01.410
Of the box folder, we had to pry it away from him.

440 "Christopher Bailey" (3537529344)

00:50:01.410 --> 00:50:12.750
And I think in doing, so everything's been reset and which is why you were last week, able to do it in this week, not able to do it. So, this is something that I'm glad you're telling me this because.

441 "Christopher Bailey" (3537529344)
00:50:12.750 --> 00:50:20.400
Um, now that it's been, it's been brought over from him. I think we need to give access rights to all the board member again.

442 "Christopher Bailey" (3537529344)
00:50:20.400 --> 00:50:27.810
Because because it changed, and that's something that we try to do quickly, but it took 3 months.

443 "Christopher Bailey" (3537529344)
00:50:27.810 --> 00:50:32.628
So, and then now I'm finding out that you don't have access now. So, uh.

444 "Matt Borger" (596337408)
00:50:32.628 --> 00:50:42.493
Sorry, that that is kind of funny. I mean, not to I mean, I've got a 5 year old cousin that got into my Netflix account pretty easily so I'm pretty sure we can figure this out.

445 "Christopher Bailey" (3537529344)
00:50:42.493 --> 00:50:45.794
3 months yeah.

446 "casey studhalter" (836382464)
00:50:45.794 --> 00:50:54.074
Well, let's let's hire him. What does he work for? Goldfish crackers.

447 "Christopher Bailey" (3537529344)
00:50:54.074 --> 00:51:00.596
And, thanks for that, we definitely will look in the November 6 meeting and we'll definitely.

448 "Matt Borger" (596337408)
00:51:00.596 --> 00:51:05.790
Fine those just not in the access. That's why I was asking if you're going to send out.

449 "Matt Borger" (596337408)
00:51:05.790 --> 00:51:19.567
A new draft, so we can all make sure that those because I know there's 6 missing from my tag alone. So, I can say, yes, those are the correct ones that we were missing before we set that up and notice because the last thing I want to do is you send this to the mayor's office and it's missing.

450 "Christopher Bailey" (3537529344)
00:51:19.567 --> 00:51:24.360
And stuff, and then then it will take another 6 months for them to review it.

451 "Christopher Bailey" (3537529344)
00:51:24.360 --> 00:51:28.560
That's why we're doing this. Awesome.

452 "Christopher Bailey" (3537529344)
00:51:28.560 --> 00:51:33.240
Um, what are we on next.

453 "Christopher Bailey" (3537529344)
00:51:33.240 --> 00:51:37.980
Electrical now, is this electrical as a solar.

454 "Christopher Bailey" (3537529344)
00:51:37.980 --> 00:51:44.208
I think this is resident Chris and what Matt? Just Matt 1 more time.

455 "Matt Borger" (596337408)
00:51:44.208 --> 00:52:02.234
Just as the reiterate how important that we get this, right? The 1st time some of these codes, especially the new buildings is 1 thing, but, um, like property maintenance and fire, they're retroactive. So if we miss something, it's a big deal, you know, for the industry.

456 "Christopher Bailey" (3537529344)
00:52:02.234 --> 00:52:10.500
I got an email from Mitchell's that said that where everything was good. So when we get to fire, I hope he.

457 "Christopher Bailey" (3537529344)
00:52:10.500 --> 00:52:13.740
Oh, I'll be, uh, doubles down on that.

458 "Christopher Bailey" (3537529344)
00:52:13.740 --> 00:52:19.560
Uh, okay, residential energy.

459 "Christopher Bailey" (3537529344)
00:52:24.270 --> 00:52:34.140
Mr. Brown is there anything that, uh, is outstanding in the residential energy that we're that we have? I have not gotten, um.

460 "Christopher Bailey" (3537529344)
00:52:34.140 --> 00:52:37.500
An email, but I know that you've been.

461 "Christopher Bailey" (3537529344)
00:52:37.500 --> 00:52:41.520
Communicate, and you've been basically jumping in and out.

462 "Christopher Bailey" (3537529344)
00:52:41.520 --> 00:52:48.570
Do you have access to box? Because that's something that also I need to
DC government employees.

463 "Christopher Bailey" (3537529344)
00:52:48.570 --> 00:52:53.580
So, okay.

464 "Christopher Bailey" (3537529344)
00:52:53.580 --> 00:53:00.040
That is wild.

465 "Marc Fetterman" (280920064)
00:53:00.040 --> 00:53:02.542
It's, it's not just you, Matt.

466 "Christopher Bailey" (3537529344)
00:53:02.542 --> 00:53:03.439
Yeah.

467 "Matt Borger" (596337408)
00:53:03.439 --> 00:53:07.395
Yeah, I thought I was technologically challenged, but apparently I'm not
the only 1.

468 "Marc Fetterman" (280920064)
00:53:07.395 --> 00:53:11.556
No, no, no, I'm the old guy in the room. It's I.

469 "Christopher Bailey" (3537529344)
00:53:11.556 --> 00:53:18.133
It's, um, I'm going to keep quiet because I still work for district
government so.

470 "Marc Fetterman" (280920064)
00:53:18.133 --> 00:53:23.880
We understand, thank you, Chris.

471 "Christopher Bailey" (3537529344)
00:53:23.880 --> 00:53:33.600
Oh, Mike, I just wanted to make sure that you because you had spoke up
about, uh, residential energy and you said all those were approved and
they were reviewed uh.

472 "Christopher Bailey" (3537529344)
00:53:33.600 --> 00:53:39.497
Previously, but I didn't you didn't get to say anything on on the
residential energy.

473 "Michael Brown" (2736486400)
00:53:39.497 --> 00:53:46.059
Yeah, gotta find team That'll go through it once we get the box. Sure.
Right.

474 "Marc Fetterman" (280920064)
00:53:46.059 --> 00:53:47.458
I'm not here.

475 "Christopher Bailey" (3537529344)
00:53:47.458 --> 00:53:51.138
Mike, yeah, I miss that.

476 "Michael Brown" (2736486400)
00:53:51.138 --> 00:53:55.140
Once they have access to box, we'll make sure it's the right.

477 "Michael Brown" (2736486400)
00:53:55.140 --> 00:53:58.560
Properly worded document got approved.

478 "Michael Brown" (2736486400)
00:53:58.560 --> 00:54:03.717
Um, yeah, put in box.

479 "Christopher Bailey" (3537529344)
00:54:03.717 --> 00:54:04.475
Okay.

480 "Marc Fetterman" (280920064)
00:54:04.475 --> 00:54:08.559
So, Michael, you're still reviewing residential energy it sounds like.

481 "Michael Brown" (2736486400)
00:54:08.559 --> 00:54:10.377
I just want to access.

482 "Marc Fetterman" (280920064)
00:54:10.377 --> 00:54:14.130
The bottom I agree by the words. Okay, thank you.

483 "Matt Borger" (596337408)
00:54:14.130 --> 00:54:19.717
So, no, 1 has access to box. It sounds like Chris. Yeah.

484 "Christopher Bailey" (3537529344)
00:54:19.717 --> 00:54:23.880
I mean, it's good. Good to know. I mean, that's where.

485 "Christopher Bailey" (3537529344)
00:54:23.880 --> 00:54:27.030
Okay, um, existing building that was me.

486 "Christopher Bailey" (3537529344)
00:54:27.030 --> 00:54:32.430
Uh, I actually have, uh, 2 issues, uh, 1 of them.

487 "Christopher Bailey" (3537529344)
00:54:32.430 --> 00:54:36.990
Uh, there was a, am I right? Existing home.

488 "Christopher Bailey" (3537529344)
00:54:36.990 --> 00:54:49.590
There was a hold that was actually placed in there. I got rid of that.
Um, there was a request for some information from the.

489 "Christopher Bailey" (3537529344)
00:54:49.590 --> 00:55:02.100
Existing building over to the residential tag that was never, never
handed over. So we had a we had a proposal that was brought before the
board.

490 "Christopher Bailey" (3537529344)
00:55:02.100 --> 00:55:14.490
Uh, it was withdrawn and it was was drawn because it needed to be seen by
the residential tag that never happened. So, um, that was actually found
in the in the notice we have removed that.

491 "Christopher Bailey" (3537529344)
00:55:14.490 --> 00:55:21.630
That is something that I'm bringing forward that, that we actually found
that we had to remove.

492 "Christopher Bailey" (3537529344)
00:55:21.630 --> 00:55:40.290
There was also some language in 1 of the proposals that we had to.
Correct. So, those were the only 2 issues that I found in the existing
building tag, which we credit corrected in this notice, uh, both were
making there were.

493 "Christopher Bailey" (3537529344)
00:55:40.290 --> 00:55:46.440
Some, like I said, some spelling and grammar, but that's I don't I don't
think I need to bring that up.

494 "Christopher Bailey" (3537529344)
00:55:46.440 --> 00:55:51.570
But, uh.

495 "Christopher Bailey" (3537529344)
00:55:56.190 --> 00:56:06.930
Green, uh, Casey, based off of your email um, I think we did find 1
missing 1.

496 "Christopher Bailey" (3537529344)
00:56:06.930 --> 00:56:10.920
But we are still trying to match up what you sent us.

497 "Christopher Bailey" (3537529344)
00:56:10.920 --> 00:56:21.479
Is there anything other than the email that you've you've provided that
we need to take, uh, take note of.

498 "casey studhalter" (836382464)
00:56:21.479 --> 00:56:29.760
Um, I think that's correct. Yes. Let me just to reiterate for the green
construction code. Um.

499 "casey studhalter" (836382464)
00:56:29.760 --> 00:56:34.230
I did send a version, um.

500 "casey studhalter" (836382464)
00:56:34.230 --> 00:56:38.160
Of the notice a proposal making with a couple of edits, um.

501 "casey studhalter" (836382464)
00:56:38.160 --> 00:56:44.430
There was there were some small corrections to be made um.

502 "casey studhalter" (836382464)
00:56:44.430 --> 00:56:52.710
So, as long as you have that email with, with, with my comments, um, and
markup that.

503 "casey studhalter" (836382464)
00:56:52.710 --> 00:56:58.110
That represents, uh, that is, you know, the entirety of my edits for the
script.

504 "casey studhalter" (836382464)
00:56:58.110 --> 00:57:01.980
And for what, for what I do have access to box, I'm in there now.

505 "casey studhalter" (836382464)

00:57:01.980 --> 00:57:10.410
And then I have a stylistic question that came up throughout, um.

506 "casey studhalter" (836382464)
00:57:10.410 --> 00:57:13.710
My notes as well. Um, they're.

507 "casey studhalter" (836382464)
00:57:13.710 --> 00:57:18.150
Or sections where the use of strike was utilized um.

508 "casey studhalter" (836382464)
00:57:18.150 --> 00:57:25.740
In the notes saying, strike this section replace in its entirety and amend felt like the more, um.

509 "casey studhalter" (836382464)
00:57:25.740 --> 00:57:37.050
The operative term in my mind, but I am far from either a code expert or an attorney. So I'd certainly defer, but just flagging that. I noticed a few.

510 "casey studhalter" (836382464)
00:57:37.050 --> 00:57:45.563
Places where it says strike and replace in its entirety when we are simply amending 1 or 2 words in this section.

511 "Christopher Bailey" (3537529344)
00:57:45.563 --> 00:57:53.880
And that's basically your definition if if you are keeping the, the base code language.

512 "Christopher Bailey" (3537529344)
00:57:53.880 --> 00:58:07.140
And you are changing it, that's amending, striking it and replacing with the whole new means that that reference standard is gone and that reference standard needs to be recreated. So, that is the only difference. It's not a.

513 "Christopher Bailey" (3537529344)
00:58:07.140 --> 00:58:10.290
It doesn't affect, uh, um.

514 "Christopher Bailey" (3537529344)
00:58:10.290 --> 00:58:14.820
Uh, unless it's 1 of the other, it does not affect that section that you're trying to do. So.

515 "Christopher Bailey" (3537529344)
00:58:14.820 --> 00:58:25.680

If you are striking, and in in the proposal, and I saw 1 of them, and I do remember talking with you about 1 of those, where there were lines going through everything. But except for, like, 1.

516 "Christopher Bailey" (3537529344)
00:58:25.680 --> 00:58:33.145
1, little word that actually is amending it. So, um, yeah, I, I think we can, we can definitely do a legislate.

517 "Marc Fetterman" (280920064)
00:58:33.145 --> 00:58:39.630
Fix on that and Chris, it's mark. Um, this has come up before and it's really up to, uh, uh.

518 "Marc Fetterman" (280920064)
00:58:39.630 --> 00:58:53.866
Your legislative affairs people, because we've been this language has been given to us by the attorneys before to, to use the word strike to make it very clear. But again, whatever DC government wants to do.

519 "Matt Borger" (596337408)
00:58:53.866 --> 00:58:58.560
Okay, but we'll hang on Mark. This is Matt. It's.

520 "Matt Borger" (596337408)
00:58:58.560 --> 00:59:03.450
It actually is really important how you do that because if you say strike.

521 "Matt Borger" (596337408)
00:59:03.450 --> 00:59:12.123
The section and replace, and you're only changing 2 or 3 words or a sentence. You have to make sure you carry forward all the model code language you want.

522 "Marc Fetterman" (280920064)
00:59:12.123 --> 00:59:14.206
Keep if you.

523 "Matt Borger" (596337408)
00:59:14.206 --> 00:59:17.666
You just put 2 or 3 words, then you're striking all section, replace it with 2 or 3.

524 "Christopher Bailey" (3537529344)
00:59:17.666 --> 00:59:20.707
Words because I'm doing this differently than before.

525 "Matt Borger" (596337408)
00:59:20.707 --> 00:59:27.030

Where we were just amending our local amendments now we're adopting a model codes with.

526 "Matt Borger" (596337408)
00:59:27.030 --> 00:59:34.860
You know, unless we change it, so if you strike and replace you, you make sure you carry forward that entire section, except the things you strike.

527 "Matt Borger" (596337408)
00:59:34.860 --> 00:59:38.130
So, you can do it 2 different ways but, uh, Casey, if you're.

528 "Matt Borger" (596337408)
00:59:38.130 --> 00:59:43.230
You should look at that closely because you want to make sure that it actually says what you want to say.

529 "Matt Borger" (596337408)
00:59:43.230 --> 00:59:46.505
Okay.

530 "Christopher Bailey" (3537529344)
00:59:46.505 --> 00:59:54.420
So with that, and Matt that's right. Uh, but with that, uh, our, our Leslie team will.

531 "Christopher Bailey" (3537529344)
00:59:54.420 --> 00:59:59.430
Provide the best direction on that and when we go and present.

532 "Christopher Bailey" (3537529344)
00:59:59.430 --> 01:00:05.463
It back to you, that's that's when we can, we can verify with everyone. What the.

533 "Marc Fetterman" (280920064)
01:00:05.463 --> 01:00:11.463
The result was because we want all of the codes to be using the same format.

534 "Matt Borger" (596337408)
01:00:14.847 --> 01:00:18.120
Okay, let's move to Chris. I think that's that's a.

535 "Matt Borger" (596337408)
01:00:18.120 --> 01:00:25.560
Really important point, though, cause the legislative affairs team's not going to understand the codes. They're just looking at, you know, how it works selectively on this but.

536 "Matt Borger" (596337408)
01:00:25.560 --> 01:00:30.630
If you strike a section and don't carry forward the language that you
want to keep in there, it goes away.

537 "Matt Borger" (596337408)
01:00:30.630 --> 01:00:34.290
So, it is important to make sure that people look at that closely.

538 "Matt Borger" (596337408)
01:00:34.290 --> 01:00:45.040
Because I know from my tag, we strike and replace, but we carry forward a
bunch of language from the model code. And if we didn't carry that in our
proposal, then it wouldn't be in the code at all.

539 "Christopher Bailey" (3537529344)
01:00:45.040 --> 01:00:56.070
I agree with you 100, Mark and Matt. Excuse me but what I want to say is,
is that we are not changing anything that has been voted on based upon.

540 "Christopher Bailey" (3537529344)
01:00:56.070 --> 01:01:00.630
The content of that proposal.

541 "Christopher Bailey" (3537529344)
01:01:00.630 --> 01:01:09.090
If the, if something has said strike section X, Y, Z, but the approved
amendment is amending words.

542 "Christopher Bailey" (3537529344)
01:01:09.090 --> 01:01:22.781
We're amending the what the action we're not amending. We are not taking
any language out. We are not changing any language of the approved
proposal. No, I I just know. I just.

543 "Matt Borger" (596337408)
01:01:22.781 --> 01:01:29.520
To make sure Casey knew when he was talking about amending versus
striking that if he struck the section.

544 "Matt Borger" (596337408)
01:01:29.520 --> 01:01:38.586
And change 3 words, and only 1:3:words changes that he carried the other
parts of it in is a proposed rulemaking because it wouldn't be there.
That's all I'm saying. No and I.

545 "Marc Fetterman" (280920064)
01:01:38.586 --> 01:01:39.970
And I'm sure she did that.

546 "casey studhalter" (836382464)
01:01:39.970 --> 01:01:44.640
Well, to be fair, I believe Lamont was the 1 who used.

547 "casey studhalter" (836382464)
01:01:44.640 --> 01:01:48.030
When compiling the notice of proposed rule making.

548 "casey studhalter" (836382464)
01:01:48.030 --> 01:01:59.627
It wasn't I, who wrote strike instead of amend. So, um, okay, I do think
it does, but who each of the tag members to ensure that the language
presented is doing what you thought it was.

549 "Marc Fetterman" (280920064)
01:01:59.627 --> 01:02:01.865
Doing perfect. Yep, thank you.

550 "Christopher Bailey" (3537529344)
01:02:01.865 --> 01:02:05.790
Well, time out, that raises a question for me.

551 "Christopher Bailey" (3537529344)
01:02:05.790 --> 01:02:11.685
W, W, why was changing the intent of the.

552 "Marc Fetterman" (280920064)
01:02:11.685 --> 01:02:21.660
Proposal, we don't know the change. He changed some of the proposals that
I've sent copies to you, Chris as well. You know, where he changed a
single word.

553 "Marc Fetterman" (280920064)
01:02:21.660 --> 01:02:25.864
And it changed the, um, subject of the, um, code change.

554 "Matt Borger" (596337408)
01:02:25.864 --> 01:02:35.907
Chris, this is, I think this is this hits the point that whenever we get
this compiled, you got to send it to everybody to review again. So we can
all look and make sure that this draft notice.

555 "Marc Fetterman" (280920064)
01:02:35.907 --> 01:02:39.427
Is correct yes, yes, yes.

556 "Christopher Bailey" (3537529344)
01:02:39.427 --> 01:02:48.166
I'm not not I'm 100% agree with that. Alright, what's next? Sir?

557 "Christopher Bailey" (3537529344)
01:02:48.166 --> 01:02:51.240
We're almost done actually, um.

558 "Christopher Bailey" (3537529344)
01:02:58.080 --> 01:03:05.550
Okay, chief, uh, real short and sweet with you. You said everything was good to go so.

559 "Christopher Bailey" (3537529344)
01:03:05.550 --> 01:03:18.265
I don't think there's any and you really had a short amount so I don't I don't see and all your information was located in the folder. So I don't foresee any any problems unless you knew.

560 "mitchell kannry" (2871867136)
01:03:18.265 --> 01:03:25.145
Uh, so Chris, I took a quick look at it. It looked all good, but you said a short amount that sparked my interest um.

561 "Marc Fetterman" (280920064)
01:03:25.145 --> 01:03:28.226
This is a lot of work. Thank you chief.

562 "mitchell kannry" (2871867136)
01:03:28.226 --> 01:03:33.827
How many can you just scroll up? How many proposals are you showing.

563 "Christopher Bailey" (3537529344)
01:03:33.827 --> 01:03:40.350
Sorry sorry? Sorry you, you are located in other folders.

564 "Christopher Bailey" (3537529344)
01:03:40.350 --> 01:03:47.310
So be mindful that when I go to let me, in fact, let me go back and I will show you.

565 "Christopher Bailey" (3537529344)
01:03:47.310 --> 01:03:51.450
Okay.

566 "Christopher Bailey" (3537529344)
01:03:51.450 --> 01:03:54.884
Who's part for me, I gotta go back back.

567 "mitchell kannry" (2871867136)
01:03:54.884 --> 01:03:59.798
So, we should have had about 30 building code changes and about.

568 "Christopher Bailey" (3537529344)

01:03:59.798 --> 01:04:06.588
Let me go here, let me go building because you had some beats on FC.

569 "mitchell kannry" (2871867136)
01:04:06.588 --> 01:04:16.056
Be in it yes, so we had we had about half building code, half fire
probably about 30 building code and 40 fire code changes.

570 "Christopher Bailey" (3537529344)
01:04:16.056 --> 01:04:22.540
And you'll notice in the building, your populate here.

571 "mitchell kannry" (2871867136)
01:04:22.540 --> 01:04:24.393
Okay, okay.

572 "Christopher Bailey" (3537529344)
01:04:24.393 --> 01:04:32.878
That's why you're well, I, I won't joke be in the chair anymore.

573 "Marc Fetterman" (280920064)
01:04:32.878 --> 01:04:36.454
So, please do it.

574 "Christopher Bailey" (3537529344)
01:04:36.454 --> 01:04:45.389
But, no, your, your proposals were in other locations, and we, that threw
us for a little bit of loop until we found them. But, uh, yeah.

575 "mitchell kannry" (2871867136)
01:04:45.389 --> 01:04:50.220
Okay, then so I see all that that looks okay.

576 "mitchell kannry" (2871867136)
01:04:50.220 --> 01:04:53.640
And then the fire code, you're having their own folder. Is that right?

577 "mitchell kannry" (2871867136)
01:04:53.640 --> 01:04:56.878
Okay.

578 "Christopher Bailey" (3537529344)
01:04:56.878 --> 01:05:04.620
Okay, uh, that was building. Excuse me?

579 "Christopher Bailey" (3537529344)
01:05:04.620 --> 01:05:09.015
Okay.

580 "mitchell kannry" (2871867136)

01:05:09.015 --> 01:05:16.567
Because this document that you have on your left that be on the top, you didn't share that with me. Correct?

581 "Christopher Bailey" (3537529344)
01:05:16.567 --> 01:05:37.520
No, I'm trying to get back on track. We've just confirmed fire your proposals, you have a fire proposal that are strictly in the fire code, and then you have a lot of building code fire changes that are in the building code, correct? So, they are in another folder, and I was saying that you didn't have a lot because you only had 2 proposals in your fire.

582 "Christopher Bailey" (3537529344)
01:05:37.520 --> 01:05:45.960
Don't work like I said, I'm not, I'm not going to jump from the, uh, chairman position here, but, uh.

583 "Christopher Bailey" (3537529344)
01:05:45.960 --> 01:05:51.124
I do want to go back and get back on track, uh, chief. Are you good?

584 "mitchell kannry" (2871867136)
01:05:51.124 --> 01:05:57.300
Uh, I I think so I'll, I'll double check that folder you.

585 "mitchell kannry" (2871867136)
01:05:57.300 --> 01:06:01.020
For my interest with some of the comments, but I think we're all good.

586 "mitchell kannry" (2871867136)
01:06:01.020 --> 01:06:05.529
From what you sent out a couple of weeks ago, we were good to go, so I'll just I'll leave it there.

587 "Christopher Bailey" (3537529344)
01:06:05.529 --> 01:06:12.270
We haven't moved any of the fire code building code changes.

588 "Christopher Bailey" (3537529344)
01:06:12.270 --> 01:06:17.280
They are in the building code as far code changes. So that's where they are.

589 "Christopher Bailey" (3537529344)
01:06:17.280 --> 01:06:25.740
Um, I, I was worried when I did not see them in the fire code, but they, they're in that section. Um, so what.

590 "Christopher Bailey" (3537529344)
01:06:25.740 --> 01:06:33.240

Please check in the building code section for your fire comments so on the right side of the screen, you have your.

591 "Christopher Bailey" (3537529344)
01:06:33.240 --> 01:06:42.008
Your comments these numbers will coincide with the building code numbers that are located in the building proposal. Rulemaking.

592 "mitchell kannry" (2871867136)
01:06:42.008 --> 01:06:51.750
Okay, so I just, I just want to be clear and I don't want to take up too much time so we have we have changes to the building code and changes to the fire code. Right? Some of them are identical.

593 "mitchell kannry" (2871867136)
01:06:51.750 --> 01:07:00.180
But some of them live solely in the fire code, and some of them live slowly in the building code. I just want to make sure that that that is differentiated.

594 "mitchell kannry" (2871867136)
01:07:00.180 --> 01:07:09.270
Like, these ones that you're showing the right those are only fire code changes. Those don't touch the building code.

595 "mitchell kannry" (2871867136)
01:07:09.270 --> 01:07:15.637
The building code changes, the building code changes would have their separate a separate change proposal for all.

596 "Christopher Bailey" (3537529344)
01:07:15.637 --> 01:07:18.155
Those Thank you.

597 "mitchell kannry" (2871867136)
01:07:18.155 --> 01:07:22.466
I just want to make sure that that's what you're seeing in the.

598 "Christopher Bailey" (3537529344)
01:07:22.466 --> 01:07:26.970
Folder and everything else we are not we're not seeing those and that's a problem.

599 "Christopher Bailey" (3537529344)
01:07:26.970 --> 01:07:33.076
Yes okay. We'll locate those. Okay.

600 "mitchell kannry" (2871867136)
01:07:33.076 --> 01:07:38.670

And if you want, uh, shoot me something offline, I can show you
everything that we've tracked and go from there.

601 "Christopher Bailey" (3537529344)
01:07:38.670 --> 01:07:44.820
Believe and this goes back to what I spoke about earlier. I believe
they're there.

602 "Christopher Bailey" (3537529344)
01:07:44.820 --> 01:07:57.600
There's somewhere else, um, we have to find them we have to put them in
the correct folder and then generate the notice and then everyone will
get a chance to look at the notice once it's been created.

603 "Christopher Bailey" (3537529344)
01:08:01.050 --> 01:08:06.930
Thanks for that.

604 "Christopher Bailey" (3537529344)
01:08:22.620 --> 01:08:30.522
This continuation of mechanical and plumbing. Mm. Hmm. This is a
continuation.

605 "Marc Fetterman" (280920064)
01:08:30.522 --> 01:08:35.662
Mechanical and point, we've done mechanical plumbing and fuel gas so
we've done the mechanical tech.

606 "Christopher Bailey" (3537529344)
01:08:35.662 --> 01:08:54.810
Believe we've done them account? Yes, we have. Those 3 are kind of go
together and I just was making sure that everyone sees that those
proposals are in this location, but yes, you're right. We have gone and
mark, you, you have done the research on that, and thank you for
providing the email with the notes.

607 "Christopher Bailey" (3537529344)
01:08:54.810 --> 01:09:01.451
All right now we're into building code.

608 "Marc Fetterman" (280920064)
01:09:01.451 --> 01:09:14.810
Um, I reviewed the building code, Chris, and there were 11:11:code
changes that had issues that I sent to you on January, 16 nothing,
everything has been approved.

609 "Marc Fetterman" (280920064)
01:09:14.810 --> 01:09:18.511
That can go forward, but it's just not in the document yet.

610 "Christopher Bailey" (3537529344)
01:09:18.511 --> 01:09:26.030
Excellent.

611 "Marc Fetterman" (280920064)
01:09:26.030 --> 01:09:38.570
And 1 of the issues per Casey and Matt concern, Lamar changed the word
when we adopted chapter 2 of the building.

612 "Marc Fetterman" (280920064)
01:09:38.570 --> 01:09:58.570
Which are our definitions, the tag had proposed, uh, responding to
Garrett and other people's suggestions to have 1 list of changes to
definitions some of them being new definitions and some being a.

613 "Marc Fetterman" (280920064)
01:09:58.570 --> 01:10:18.570
Amended definitions, the goal was to put them all in a single list in the
2017 construction codes. They're in 2 lists and Lamar, uh, use the word
strike. Uh, instead of the word amend that we had in our approved
document. And so if we.

614 "Marc Fetterman" (280920064)
01:10:18.570 --> 01:10:38.570
Forward with what's in the proposed notice everything that, um, we're not
touching would would have been eliminated from the code. So it's quite a
substantial important issue that on regarding chapter 2 that needs to be
addressed. And I, I hope it was clearly noted in my memo to, you.

615 "Christopher Bailey" (3537529344)
01:10:40.185 --> 01:10:48.345
Thank you, sir. Uh, did you want to check since we're building code? Did
you want to touch on the administrative.

616 "Marc Fetterman" (280920064)
01:10:48.345 --> 01:10:58.140
Well, 1 more thing on the building code, it's also in addition to the 11,
uh, items that were covered by the building tag, there were.

617 "Marc Fetterman" (280920064)
01:10:58.140 --> 01:11:04.590
10 code changes that are not in there that have to do with the.

618 "Marc Fetterman" (280920064)
01:11:04.590 --> 01:11:09.000
Um, 4 of them go into the building code.

619 "Marc Fetterman" (280920064)
01:11:09.000 --> 01:11:20.970

I go into the fire code and 1 goes into the residential code again. This is all listed in my memo to you uh, regarding the, um.

620 "Marc Fetterman" (280920064)
01:11:20.970 --> 01:11:28.544
A tag, uh, I've covered that already by discussing the, um, issues with chapter 2.

621 "Christopher Bailey" (3537529344)
01:11:28.544 --> 01:11:31.039
Thank you. I just.

622 "Marc Fetterman" (280920064)
01:11:31.039 --> 01:11:48.920
Knock that out as well, and also the wrong version of chapter 32, which is construction and public property, uh, was proposed to go forward an earlier version. And in my memo to you, I've noted the, um, later approved version should be substituted for the earlier version.

623 "Marc Fetterman" (280920064)
01:11:48.920 --> 01:11:53.987
That's in your documents.

624 "Christopher Bailey" (3537529344)
01:11:53.987 --> 01:11:58.202
I noticed that there there were changes from.

625 "Marc Fetterman" (280920064)
01:11:58.202 --> 01:12:04.050
That is that in the latest, sir? Yep. And we approve them. We being the.

626 "Marc Fetterman" (280920064)
01:12:04.050 --> 01:12:20.070
Yes, and as long as I'm boring you, the, um, on the electrical tag, um, there was 1 code change missing, which I've noted to you and with regard to elevator, which is in the building.

627 "Marc Fetterman" (280920064)
01:12:20.070 --> 01:12:33.520
Um, code as, you know, there were some issues there that I've also noted to you, but everything, uh, all we're hoping is that what we've already approved as the is able to move.

628 "Christopher Bailey" (3537529344)
01:12:33.520 --> 01:12:35.170
Forward okay.

629 "Anthony Dale" (1106162176)
01:12:35.170 --> 01:12:43.063

Thank you Mr. chair. This is Anthony. I have to jump. I hope that won't lose your form. If you need to follow up.

630 "Christopher Bailey" (3537529344)
01:12:43.063 --> 01:12:45.126
I have to.

631 "Marc Fetterman" (280920064)
01:12:45.126 --> 01:12:47.529
And I think we're fine. Anthony.

632 "Christopher Bailey" (3537529344)
01:12:47.529 --> 01:12:56.448
Okay, I've got 1 too. We need 7. mark. You already did the math here cause? Yes, sir. Yeah, we can.

633 "Anthony Dale" (1106162176)
01:12:56.448 --> 01:12:58.266
All right. Thanks.

634 "Marc Fetterman" (280920064)
01:12:58.266 --> 01:13:03.103
You have a good day. Thank you Anthony.

635 "Christopher Bailey" (3537529344)
01:13:03.103 --> 01:13:12.249
All right, so actually, with those 3 taken out, uh, we, we, we.

636 "Marc Fetterman" (280920064)
01:13:12.249 --> 01:13:20.580
You haven't, um, oh, 1 more Chris um, I've as, you know, I've done the flood as well and submitted that document to, you.

637 "Marc Fetterman" (280920064)
01:13:20.580 --> 01:13:32.940
And there were some issues there where, um, earlier drafts of, um, uh, code changes, uh, were are what's in the, um.

638 "Marc Fetterman" (280920064)
01:13:32.940 --> 01:13:45.598
Box document and not the latest approved version, but again, I've sent that information to you and if natr, you want to get back in touch with me I'd be happy to clarify anything. That doesn't make sense.

639 "Christopher Bailey" (3537529344)
01:13:45.598 --> 01:13:50.580
Hello.

640 "Christopher Bailey" (3537529344)
01:13:50.580 --> 01:14:01.423

And I just want to point out that accessibility, uh, did not provide or I do not have anything from them. That is, I believe.

641 "Marc Fetterman" (280920064)
01:14:01.423 --> 01:14:04.361
That's Jason. Yeah.

642 "Christopher Bailey" (3537529344)
01:14:04.361 --> 01:14:11.682
Yeah, I did not get an email from him, but I don't believe there were any proposals from the accessibility tag.

643 "Marc Fetterman" (280920064)
01:14:11.682 --> 01:14:16.745
And that are, he has quite a few proposals that they appear to be there.

644 "Christopher Bailey" (3537529344)
01:14:16.745 --> 01:14:20.044
I was unable to do.

645 "Marc Fetterman" (280920064)
01:14:20.044 --> 01:14:23.465
We'll look for them because they're in chapter 11 of the building code. They're all they're.

646 "Christopher Bailey" (3537529344)
01:14:23.465 --> 01:14:27.988
Oh, when we move them to the dongle. Oh, yeah. Yeah.

647 "Marc Fetterman" (280920064)
01:14:27.988 --> 01:14:34.246
Maybe I'm guessing.

648 "Christopher Bailey" (3537529344)
01:14:34.246 --> 01:14:39.000
Here it is, there's 1 2.

649 "Christopher Bailey" (3537529344)
01:14:39.000 --> 01:14:57.390
3:4:OK:ay 2.

650 "Christopher Bailey" (3537529344)
01:14:57.390 --> 01:15:07.020
Share the agenda back once I get it up here. 3rd.

651 "Christopher Bailey" (3537529344)
01:15:30.210 --> 01:15:34.980
I have too many windows open here. Give me moment.

652 "Christopher Bailey" (3537529344)

01:15:38.940 --> 01:15:42.750
All right share.

653 "Christopher Bailey" (3537529344)
01:15:47.220 --> 01:16:07.220
Okay all right so I've got a couple of, uh, action items from here, which
is to make sure that everyone has, uh, the valid emails to receive box
access. I'll make sure that.

654 "Christopher Bailey" (3537529344)
01:16:07.220 --> 01:16:27.220
Each of you get a, uh, uh, access to the box folder so so you can review,
uh, we will also have, uh, a draft report notice of remote notice of
proposals rulemaking version 2 uh, that is sent out, uh, with all
everything that we've discussed here. We will be reaching out to each of
the.

655 "Christopher Bailey" (3537529344)
01:16:27.220 --> 01:16:47.220
Chairs if we have any questions based upon some of the emails may or may
not have the proposal, or if, uh, we need your help finding out which
meeting it was approved under just to just to verify, uh, you know, dot
the i's cross the t's uh, I do want to move to any, uh, comments, uh.

656 "Christopher Bailey" (3537529344)
01:16:47.220 --> 01:16:50.830
From the board members, uh, on, um.

657 "Marc Fetterman" (280920064)
01:16:50.830 --> 01:17:07.080
Open discussion just real quickly. Um, back to the are important issue of
reviewing the code changes. Um, I did not include in my review. The
number of CO changes regarding mass timber that go in the, um.

658 "Marc Fetterman" (280920064)
01:17:07.080 --> 01:17:27.080
Proposed 2023 document that, uh, Jason, right. Um, and others, uh, put
forward, uh, when you get in touch with Jason, uh, the mass timber ones
need to be confirmed they, they introduced and we approved a number for
the 2023 code. We also.

659 "Marc Fetterman" (280920064)
01:17:27.080 --> 01:17:32.214
To approve quite a few for revising our current 2017 code and we haven't
seen.

660 "Christopher Bailey" (3537529344)
01:17:32.214 --> 01:17:38.988
He knows yet either. Now, those so, the amendment amendment for the 2017,
I don't believe.

661 "Marc Fetterman" (280920064)
01:17:38.988 --> 01:17:42.090
We've done anything with I understand.

662 "Marc Fetterman" (280920064)
01:17:42.090 --> 01:17:45.210
Okay, but the board.

663 "Marc Fetterman" (280920064)
01:17:45.210 --> 01:17:49.490
Yes, we did, and they're just sitting in a in some.

664 "Christopher Bailey" (3537529344)
01:17:49.490 --> 01:17:54.815
Correct. Okay so thank you for bringing that up. I'll try to tackle that.
Once we get this.

665 "Marc Fetterman" (280920064)
01:17:54.815 --> 01:18:10.930
Yeah, but the 2023, we may be missing some mass timber. I didn't delve
into that because I assumed that Jason would be able to help us saw a
whole bunch of.

666 "Marc Fetterman" (280920064)
01:18:10.930 --> 01:18:14.457
In there, and I think they may be there. I I said, I just.

667 "Christopher Bailey" (3537529344)
01:18:14.457 --> 01:18:23.072
I didn't review them and just to be fair. I reviewed them to make sure
that the spreadsheet matched what was in the folder. I did not go.

668 "Marc Fetterman" (280920064)
01:18:23.072 --> 01:18:25.791
Through the actual, and go back to the meeting minutes.

669 "Christopher Bailey" (3537529344)
01:18:25.791 --> 01:18:29.990
Yeah, yeah, exactly. But I did make sure what was presented.

670 "Christopher Bailey" (3537529344)
01:18:29.990 --> 01:18:40.680
It was there, so That'll be a task that I take on, uh, prior to and we'll
of course, we'll involve Jason to make sure that we get those. Correct.

671 "Matt Borger" (596337408)
01:18:40.680 --> 01:18:45.316
Chris, this is Matt. You're you're you're the floors.

672 "Christopher Bailey" (3537529344)
01:18:45.316 --> 01:18:49.917
Comments right. Uh, yes, we are, you know.

673 "Matt Borger" (596337408)
01:18:49.917 --> 01:18:55.500
By the board yes. So, I mean, I know we, uh, we lost, um.

674 "Matt Borger" (596337408)
01:18:55.500 --> 01:19:09.750
Anthony, but I kind of echo a little bit. What do you say? I know you've
brought this up before that you need an admin support, and it seems
pretty clear to me that that's definitely needed to help. You get this
document together.

675 "Matt Borger" (596337408)
01:19:09.750 --> 01:19:12.900
Is there something we can do outside to.

676 "Matt Borger" (596337408)
01:19:12.900 --> 01:19:16.950
Talk to the council or get resources, or because.

677 "Matt Borger" (596337408)
01:19:16.950 --> 01:19:28.320
This is too important to get wrong and will waste too many people's time.
So I want to make sure you got the resources. You need to be able to get
this stuff together. So, is there something we can do to help you or.

678 "Matt Borger" (596337408)
01:19:28.320 --> 01:19:32.416
Influence people to get you the support you need um.

679 "Christopher Bailey" (3537529344)
01:19:32.416 --> 01:19:43.200
Uh, yes, yes and yes. Um, I've actually talked or tried to reach out to 2
other chairman 2:2:other chairpersons of other boards.

680 "Christopher Bailey" (3537529344)
01:19:43.200 --> 01:19:47.940
To get their take and get their, um, a sense of what.

681 "Christopher Bailey" (3537529344)
01:19:47.940 --> 01:19:51.540
They use in order to so I reached out to the public space committee.

682 "Christopher Bailey" (3537529344)
01:19:51.540 --> 01:19:54.990
Uh, uh, chairman, um, Eliot Garret.

683 "Christopher Bailey" (3537529344)
01:19:54.990 --> 01:20:07.050
Um, I also serve on the public space, uh, committee, but I reached out to him as well to find out, you know, what does it take? What what support do you have? Do you have a budget? Do you have this? We're.

684 "Christopher Bailey" (3537529344)
01:20:07.050 --> 01:20:10.530
In communication of that, he's handed over a couple of.

685 "Christopher Bailey" (3537529344)
01:20:10.530 --> 01:20:15.150
Um, a meeting agendas and a couple of, um.

686 "Christopher Bailey" (3537529344)
01:20:15.150 --> 01:20:20.700
Kind of a small outside file system format.

687 "Christopher Bailey" (3537529344)
01:20:20.700 --> 01:20:38.430
He was able to help me as well as their executive secretary was able to help me get kind of like a format for some of these meetings down. So I am reaching out to that to find out what we need and to get an ask ready. So this also, I believe, I don't know who it was last meeting with the meeting prior.

688 "Christopher Bailey" (3537529344)
01:20:38.430 --> 01:20:42.270
Wanted to, you know, get a, an, for.

689 "Christopher Bailey" (3537529344)
01:20:42.270 --> 01:21:02.270
Uh, tag chairs, so that they knew how to 1 same thing. Yeah, Anthony, yeah, that's right. Right. Um, to make sure that they know what they need to do, how they need to go about it, what they should be taking care of and how they should be delegating. I think that's that's something definitely that we need, and definitely that we can work on that takes.

690 "Christopher Bailey" (3537529344)
01:21:02.270 --> 01:21:12.660
That takes that support to come through and to to do reach out and to do all that. So I do agree that I am trying my best to internally with.

691 "Christopher Bailey" (3537529344)
01:21:12.660 --> 01:21:17.754
But I think this needs really be an external. You can get yeah.

692 "Matt Borger" (596337408)
01:21:17.754 --> 01:21:27.540

Me what you an ask that's that's what I'm trying to get at. If you can give me what that ask is whether it's money, whether it's personnel. Um, there's only a few people on the board that.

693 "Matt Borger" (596337408)
01:21:27.540 --> 01:21:47.540
Are not D. C employees are not, you know, professionals in the sense that this affects our my company's livelihood what I do for a living. So it's really important us that you have the resources you need. So, if we need to go testify to the Council, if we need to go submit letters.

694 "Matt Borger" (596337408)
01:21:47.540 --> 01:21:53.550
Tell me what that ask is, I'm volunteering to help you get what you those resources you need.

695 "Matt Borger" (596337408)
01:21:53.550 --> 01:22:13.437
Because it's so important to what I do for a living. It affects all of my industry very, very much so I want to make sure you have those resources. So, if you can give me a list, give me an email, whatever, and I can go talk to the Council, we can go to the budget hearings money people, whatever it is. I just don't know what you need. So, that's what.

696 "Christopher Bailey" (3537529344)
01:22:13.437 --> 01:22:22.890
I'm looking for all of the above, but I think I do need to be more specific and I think I kind of need, like a proof of concept to give you that that says.

697 "Christopher Bailey" (3537529344)
01:22:22.890 --> 01:22:30.480
The reason why I need 3 analysts the reason why I need to legislative affairs the reason why I need.

698 "Christopher Bailey" (3537529344)
01:22:30.480 --> 01:22:50.480
2 technical AIDS, the reason why I need all of those and then give you justification so that you can have something a little bit more other than that just complaining that we need money and we need people you actually have some position descriptions you actually have some tasks some duties, some roles responsibilities, those type of things. Now, of course, you can always take the.

699 "Christopher Bailey" (3537529344)
01:22:50.480 --> 01:22:55.710
Uh, the, uh, uh, I was gonna say meeting minutes, but it's not maintenance. It's the, um.

700 "Christopher Bailey" (3537529344)

01:22:55.710 --> 01:23:01.410
That it's not a charter, it's our, um.

701 "Christopher Bailey" (3537529344)
01:23:01.410 --> 01:23:05.757
Mark help me out here and see how how.

702 "Marc Fetterman" (280920064)
01:23:05.757 --> 01:23:09.337
Our board is is, uh, bylaws bylaws Thank you.

703 "Christopher Bailey" (3537529344)
01:23:09.337 --> 01:23:28.490
Good grief, you could take that and that's actually what I kind of did to
start that for the tags. It's just take the bylaws and then just expand
upon it and then assign people who can do certain roles and who can do
certain things that support and then I just need to add position scripts
for that. But.

704 "Christopher Bailey" (3537529344)
01:23:28.490 --> 01:23:46.410
This is our 3rd, this is our 2nd, regular meeting as me as chair when our
3rd meeting together with a special meeting. There's a lot that I see
that needs to happen and needs to change with this. So, I do appreciate
any support that the, the board, and its members can do with their
outside influence.

705 "Christopher Bailey" (3537529344)
01:23:46.410 --> 01:23:55.637
In order to get this, I just need to give you an outline and ask of what
it is that this board needs and I think that's totally fair. And I
welcome to help. I really do.

706 "Matt Borger" (596337408)
01:23:55.637 --> 01:24:02.730
All right, well, when you, when you get together, just let me know,
because we're coming up to, you know, budget cycle here. So we're, uh.

707 "Matt Borger" (596337408)
01:24:02.730 --> 01:24:06.236
It's a time to ask for stuff so just let me know.

708 "Christopher Bailey" (3537529344)
01:24:06.236 --> 01:24:11.700
Thank you sir. Uh, any comments from the board.

709 "Christopher Bailey" (3537529344)
01:24:17.220 --> 01:24:21.540
Not hearing any more, um, any comments by members of the public.

710 "Christopher Bailey" (3537529344)
01:24:21.540 --> 01:24:28.320
Stop sharing, because I don't know how to see the chat while I'm not
sharing.

711 "Christopher Bailey" (3537529344)
01:24:32.040 --> 01:24:43.740
Like, we have, um, some information not pretending to the.

712 "Christopher Bailey" (3537529344)
01:24:51.210 --> 01:25:08.190
Potential Nope, I, I, I see some context, but that's not pertaining to
business or or.

713 "Christopher Bailey" (3537529344)
01:25:08.190 --> 01:25:19.260
Already really, uh, not.

714 "Christopher Bailey" (3537529344)
01:25:19.260 --> 01:25:24.000
And I I see no hands raised. All right. Um.

715 "Christopher Bailey" (3537529344)
01:25:24.000 --> 01:25:33.815
Can I get a message? We have a I thought I saw I thought I saw something.

716 "Dave Mallof-WARD2" (2583947776)
01:25:33.815 --> 01:25:38.337
Oh, thank you, sir. We'll, uh, we're done.

717 "Marc Fetterman" (280920064)
01:25:38.337 --> 01:25:47.297
Thank you Chris before we adjourn. Do you have a proposed schedule for
getting these, um, revised box documents to.

718 "Christopher Bailey" (3537529344)
01:25:47.297 --> 01:25:51.150
To us thanks, mark. Um.

719 "Christopher Bailey" (3537529344)
01:25:51.150 --> 01:26:10.611
Right now we have 1 legislative affairs individual that is tirelessly
going to be working on this after a couple of hearings. But thank you,
Nate. I do want to make. Yeah, I do want to make sure that I gave him
some. I do want to make sure.

720 "Marc Fetterman" (280920064)
01:26:10.611 --> 01:26:13.695
Give him enough time to him. I do too. We, we got.

721 "Christopher Bailey" (3537529344)
01:26:13.695 --> 01:26:17.880
Get this right? And I'm trying as fast as I can.

722 "Christopher Bailey" (3537529344)
01:26:17.880 --> 01:26:30.960
But with as much care as I can to, to start this notice of proposed
making, because we've got to get this sent over to the register in order
to start the 2nd round, but I don't want to short.

723 "Christopher Bailey" (3537529344)
01:26:30.960 --> 01:26:36.510
I don't want to I don't want to provide I don't want to provide another
agenda.

724 "Christopher Bailey" (3537529344)
01:26:36.510 --> 01:26:56.510
Uh, that's supposed to be meeting minutes to the board. All right Thank
you. That's my, that's my goal here. So it will be as soon as possible,
and I definitely want to get it done most. Definitely. Before the March
meeting, but I intend to have this notice a proposal rulemaking done
sooner so that you all get your drafts again.

725 "Christopher Bailey" (3537529344)
01:26:56.510 --> 01:27:17.150
I do not intend to bring this to a vote, but to any comments. And if I do
receive comments, that may mean, we have a March meeting on the meeting
on the no supposed rulemaking to handle those, those comments or, you
know, issues that cannot be handled offline. I do agree with Anthony
that, you know.

726 "Christopher Bailey" (3537529344)
01:27:17.150 --> 01:27:29.790
This was a working session and we needed to make sure that certain things
were said certain things were known. I'm glad some of the tax shares that
brought up issues that we that we didn't find were there. We now are
aware of them.

727 "Christopher Bailey" (3537529344)
01:27:29.790 --> 01:27:33.480
Um, that's great, but I do want to take some of this work.

728 "Christopher Bailey" (3537529344)
01:27:33.480 --> 01:27:53.480
Off of the board's time, so that we're stuck without stuck. Excuse me?
That's the wrong word. So that we are using our time to approve and move
the proposals forward. This right here is I needed to get everything on
the same page. Everyone knowing that the rulemaking is getting done, you
will get a draft. Hopefully we will handle anything before the March.

729 "Christopher Bailey" (3537529344)
01:27:53.480 --> 01:27:58.230
And then the March meeting will be, uh, new business.

730 "Christopher Bailey" (3537529344)
01:27:58.230 --> 01:28:05.010
So that's the intent. All right. Um, do.

731 "Christopher Bailey" (3537529344)
01:28:05.010 --> 01:28:08.160
Do I have an agenda? I do I have any.

732 "Christopher Bailey" (3537529344)
01:28:08.160 --> 01:28:12.601
A motion to adjourn.

733 "keith.parsons" (133187072)
01:28:13.725 --> 01:28:16.864
Hello hey, John.

734 "Christopher Bailey" (3537529344)
01:28:16.864 --> 01:28:25.511
I do have a 2nd.

735 "Marc Fetterman" (280920064)
01:28:25.511 --> 01:28:28.287
I hear something that I don't know Mark will. 2nd, it's.

736 "Christopher Bailey" (3537529344)
01:28:28.287 --> 01:28:33.570
Sorry, thank you. I don't I don't even see a light popping up, but I
heard something, but okay.

737 "Christopher Bailey" (3537529344)
01:28:33.570 --> 01:28:36.600
Motion has been, um.

738 "Christopher Bailey" (3537529344)
01:28:36.600 --> 01:28:39.720
A, 2nd, um, are there any opposed.

739 "Christopher Bailey" (3537529344)
01:28:46.249 --> 01:28:52.006
this meeting is adjourned at twelve thirteen pm i thank you all i'll have
a great

740 "Eric J. Jones, MSF" (2109874432)
01:28:52.006 --> 01:28:54.005
Okay.

```
741 "Christopher Bailey" (3537529344)
01:28:54.005 --> 01:28:57.180
You Thank you, thank you.
```
